Chapter 1

Abstract

This document contains some recent drawings which are created by VARIK VALEFOR, as well as some information regarding such drawings.

The word “some” is used because there exists a recent drawing which is created by VARIK VALEFOR l such that l is intentionally omitted from this document. Examples of such drawings include VARIK’s pornographic drawings.

Chapter 2

Translation

The English version of “+/ Drawings” is a translation of the Lojban version of “+/ Drawings”. The Lojban version is canonical, and possible is that the Lojban version exceeds (in being detailed) the English version. But VARIK hopes that the English version is interesting for prenu which do not use Lojban.

Chapter 3

Licensing

All drawings which this document contains are released in accordance with the Unlicense, which is described at <https://unlicense.org>. Although the original descriptions of many such drawings state that such drawings are released in accordance with the CC BY-NC 4.0, these descriptions are outdated; VARIK has re-licensed such drawings such that these drawings are placed into the public domain.

Chapter 4

20200414042645-03

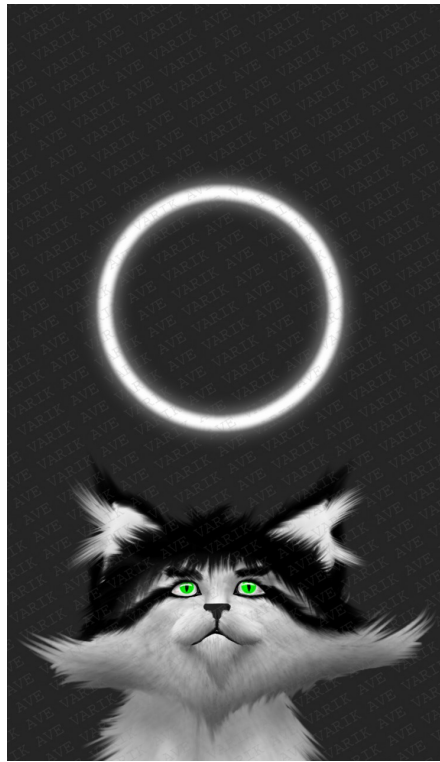

Figure 4.1: The test drawing which has no “true” title.

4.1 The Original Description of the Drawing

This drawing was drawn to determine whether or not the use of computer mice as drawing tools is viable, and to determine whether or not GIMP is actually a terrible program; when drawing this image, that GIMP is a horrible computer program became very apparent, as did the computer mouse’s viability as a drawing tool.

Dickcissels are cool.

4.2 Watermarking

VARIK finds that the watermarking of this drawing is a bit excessive...especially when considering VARIK’s having released relatively low-resolution unwatermarked versions of “20200414042645-03”.

Figure 4.2: A version of the drawing which lacks watermarking is revealed...as is the absence of some fur texturing. Gross.

4.3 Faults

A subset of the faults which plague “20200414042645-03” is as follows:

- “JUDASTRAINWRECK”’s depiction of VUNC’s neck lacks some shading which VUNC’s head should “cast” onto VUNC’s neck...as well as some fur texturing.
- The upper bit of the visible part of VUNC’s left eye lacks some shading.

Chapter 5

Proactive Security

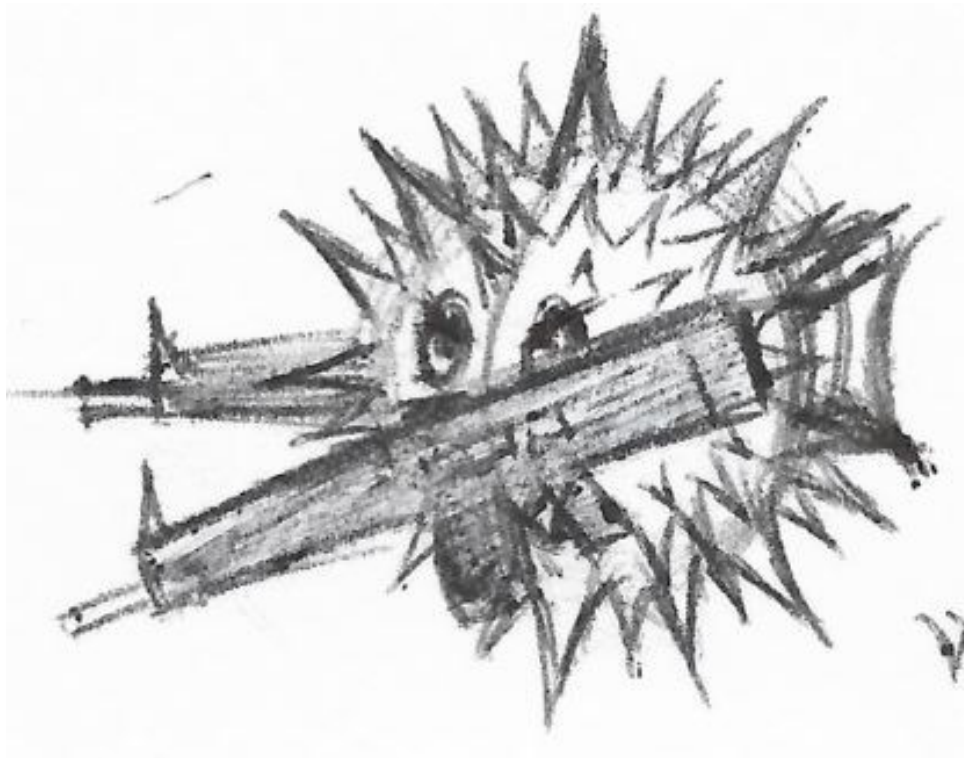

Figure 5.1: We run OpenBSD here. Don't even try it, punk.

5.1 The Original Description of the Drawing

The attached drawing is posted in response to the apparent lack of drawings which feature Puffy.

Puffy lacks eyebrows because someone forgot to add eyebrows.

The AA-12 is a cool gun.

Chapter 6

WESTERNUNIONSOFT- HECOUNTRYWESTERNS

Figure 6.1: The actual drawing, as opposed to a bunch of text.

6.1 The Original Description of the Drawing

6.1.1 A Successful “Three-Quarters” Thing

After trying and struggling to draw VARIK’s character in a “three quarters” pose for a decent period of time and taking rather long breaks between drawings, VARIK actually manages to somewhat decently draw VARIK’s character such that VARIK’s character is depicted in a “three quarters” pose.

6.1.2 Watermarking and Licensing

Additionally, this drawing is not *too* obnoxiously watermarked. However, this drawing is NOT released into the public domain. VARIK retains the rights to this drawing, although this fact may change as time passes; as time passes, VARIK becomes increasingly friendly to the idea of releasing VARIK’s drawings into the public domain.

6.1.3 Tools Used

This drawing is drawn using Krita, which VARIK quite dislikes.

During the creation of this drawing, Krita is all but unusably slow, as Krita manages to make layers invisible in the short timespan of approximately thirty seconds. Partially as a result of this slowness, VARIK may create future drawings using CLIP STUDIO PAINT EX; VARIK owns a copy of CLIP STUDIO PAINT EX and finds that CLIP STUDIO PAINT EX is superior to Krita by nearly every metric. VARIK’s appreciation for WINE on FreeBSD manages to grow even greater.

GIMP is also used for a short while; however, after being in development for multiple decades, GIMP lacks some basic features which VARIK uses, e.g., clipping masks. As such, VARIK completes this drawing with Krita.

Yes, Open-Source Stuff *can* be All Right

The “open-source” idea is cool...but can generate some real shit. “Critics can fix the software” is a crap excuse, as not all users are computer programmers. Additionally, nearly unmaintainable source code exists, and VARIK does not find that Krita’s source code is particularly good.

These problems are mentioned because VARIK wishes to like Krita and GIMP...but cannot actually like Krita and GIMP unless Krita and GIMP stop being frass.

6.1.4 “Logos” and Whatnot

Determining the meanings of the “logos” which are present on the toolbox is left as a trivial exercise for the reader. “[L]ogos” is written in inverted commas because some such things may not really be logos.

6.1.5 On the Use of Version Control

The history of this file may eventually be uploaded to GitHub; this file is tracked via Git, generating a fairly large repository. However, this history *may* be encrypted, as VARIK wishes to be able to reasonably easily provide evidence of VARIK's having created this drawing.

6.1.6 Criticism

As ever, decent criticism is strongly appreciated. However, VARIK requests that such criticism is detailed; VARIK finds that the extent to which “the shape of the fur does not match the shading of the arm” is helpful is greater than the extent to which “the fur looks bad” is helpful, although both things can be helpful.

6.1.7 Tools Used

This description is written with the good ol' `ed(1)`.

6.2 Faults

“WESTERNUNIONSOFTHECOUNTRYWESTERNS” depicts a VUNC whose abdominal muscles are misshapen.

6.2.1 Janky Abdominal Muscles

In “WESTERNUNIONSOFTHECOUNTRYWESTERNS”, VUNC's abdominal muscles are a bit misshapen.

This problem likely results from VARIK's cheesy method of adding VUNC's abdominal muscles. This method involves adding muscles individually.

6.3 Speedpaint

A narrated video which depicts the creation of “WESTERNUNIONSOFTHECOUNTRYWESTERNS” is available at <https://diode.zone/w/vR9yipHTfuaH3SKPiEXFLm> and <https://vimeo.com/635651456>. However, motherfucking heretics can also view the video at <https://www.youtube.com/watch?v=0wyF7okop64>.

6.3.1 Crappy Video Quality

The quality of the video portion of the narrated speedpaint is a bit cheesy.

This cheesiness likely results from VARIK's having used FFmpeg's optionless AVI output to record the narrated video; when used without options, FFmpeg's AVI output uses very lossy H.264 encoding.

6.4 Lack of Fur Detail

In this drawing, VUNC's fur lacks some fine detail.

Whilst drawing “WESTERNUNIONSOFTHECOUNTRYWESTERNS”, VARIK fails to add the fine fur layer to the drawing. This failure results in a drawing which contains only coarse fur texturing.

6.5 Sketches

6.5.1 First Sketch

The first version of “WESTERNUNIONSOFTHECOUNTRYWESTERNS” is a fairly cheesy pencil sketch.

Figure 6.2: The first sketch of “WESTERNUNIONSOFTHECOUNTRYWESTERNS”.

6.5.2 Second Sketch

The second version of “WESTERNUNIONSOFTHECOUNTRYWESTERNS” begins as a relatively decent pencil sketch. However, this sketch eventually becomes the vector image which is visible at <https://github.com/varikvalefor/drawingstuff/blob/master/50x/toolbox/toolboxsketch002.svg>.

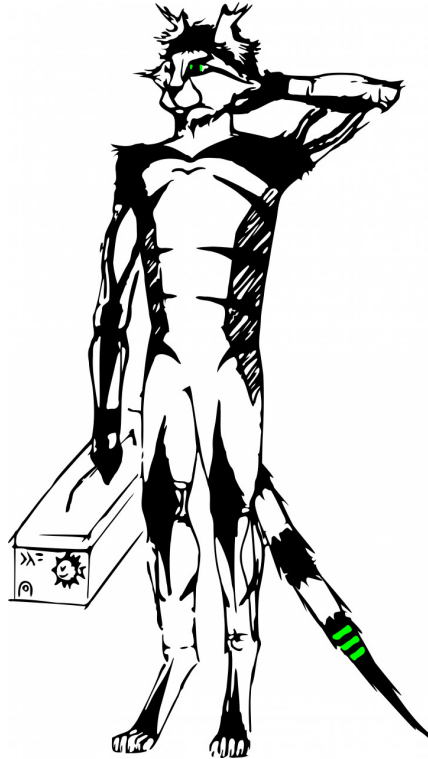

Figure 6.3: The second sketch of “WESTERNUNIONSOFTHECOUNTRYWESTERNS”.

Chapter 7

HOLLYWOODFREAK- SONTHEHOLLYWOOD- SCENE

7.1 The Original Description of the Drawing

7.1.1 A Cheesy-Ass Short Story

Let there exist a prenu J .

K denotes the depicted man.

In the middle of an arbitrary night, as J walks down an arbitrary street and nears a power substation, K appears from behind a bush and slowly approaches J .

Whilst J appears rather surprised and unnerved, K opens K 's coat and speaks the following words: "Hey, kid...want some free software?"

Determining whether or not J "takes up" K 's offer is left as an exercise for the reader.

7.1.2 Blah

Another dumb joke is revealed! In this case, the joke takes the form of a drawing which is called "HOLLYWOODFREAKSONTHEHOLLYWOODSCENE".

In addition to being a dumb joke, this drawing is VARIK's first *real* attempt to draw fabric.

Figure 7.1: “HOLLYWOODFREAKSONTHEHOLLYWOODSCENE”.

7.1.3 The Contents of the Coat

Discs

The “7.0” disc is an OpenBSD installation disc, and the “13” disc is a FreeBSD installation disc. As of the publishing of this drawing, 7.0 and 13.0 are the most recent versions of OpenBSD and FreeBSD, respectively.

Coat Pockets

The reader can assume that the contents of the pockets of the coat are specifications and compilers of the programming languages whose “logos” are mentioned. “[L]ogos” is written in inverted commas because one such “logo” is not an established logo but is a recognisable feature of the programming language which this “logo” represents.

On the Amount of Stuff

Whilst conceptualising this drawing, VARIK intends to mention a relatively great number of softwares. However, there exists an idea such that this idea

does not immediately come to fruition. A “deluxe” version of this drawing may eventually be created.

7.1.4 Criticism

As ever, criticism regarding this drawing is appreciated.

7.1.5 Tools Used

This drawing is drawn using GIMP.

This description is written using ed(1).

7.2 Faults

Some prenu find that the clothing whose wearing is depicted by “HOLLYWOODFREAKSONTHEHOLLYWOODSCENE” resembles paper.

Similarly, VARIK finds that the discs which are depicted by “HOLLYWOODFREAKSONTHEHOLLYWOODSCENE” resemble paper cut-outs.

7.2.1 Two-Dimensional Appearance of Clothing

Several prenu claim that in “HOLLYWOODFREAKSONTHEHOLLYWOODSCENE”, VUNC’s clothing lacks depth and appears to be paper or something.

VARIK agrees with this assessment.

Luckily, the idea of wearing a paper suit which lacks a back is damn funny.

7.2.2 Shading of Discs

VARIK finds that the discs resemble paper cut-outs, as opposed to optical discs. This problem may result from the discs’ complete opacity.

Chapter 8

BROKEDOWNOUTINA-DITCHOFOLDRUBBISH

Figure 8.1: This figure is the drawing. Is a photograph of a ham sandwich or something expected? Have some sense, foo'.

8.1 The Original Description of the Drawing

A new drawing is revealed!

8.1.1 “Proper” Background...and Jokes

This drawing, which is called “BROKEDOWNOUTINADITCHOFOLDRUBBISH”, is VARIK’s first published drawing which features a “proper” background, as opposed to a solid colour or some abstract thing. Additionally, “BROKEDOWNOUTINADITCHOFOLDRUBBISH” includes a few jokes.

8.1.2 On the Box

The reader can assume that the cardboard box in which the character lies is reinforced such that this box is not deformed under minor weight. The reader can also assume that the flaps of this box are folded inward or removed.

8.1.3 Origins as an Inside Joke

This drawing actually begins as an inside joke, as the box is originally adorned with some text which functions as an inside joke. However, VARIK eventually concludes that this inside joke is not terribly amusing and removes the part of the drawing which qualifies as an inside joke.

8.1.4 On “ZZZ...”

The presence of “ZZZ...” indicates that the character is snoring, which indicates that the character is sleeping. But why in the hell is “ZZZ...” the accepted transcription of snoring?

8.1.5 Criticism

As ever, criticism is appreciated.

8.1.6 Weapons of Choice

This drawing is created using GIMP. The actual drawing work is done with a trackpad.

This description is written using ed(1).

Both GIMP and ed(1) are run on OpenBSD.

Chapter 9

DANCINGONTHEROOF- SHOOTINGHOLESIN- THEMOON

Figure 9.1: The full version of
“DANCINGONTHEROOFSHOOTINGHOLESONTHEMOON”. To see every
detail, use a magnifying glass...or a microscope.

9.1 The Original Description of the Drawing

Yet another drawing is created! In this case, the drawing depicts an everyday situation...but is hopefully not too boring.

9.1.1 Definitions

Let “VUNC” denote VARIK’s character.

9.1.2 Executive Summary

In this drawing, VUNC sits at a terminal and works on some tedious software-related stuff...whilst reading terrible chatroom messages.

9.1.3 Jokes and Whatnot

Like VARIK’s other drawings, this drawing features a decent number of jokes and references. Explaining these jokes is left as an exercise for the reader. However, in addition to some jokes, this drawing contains a small social commentary. Describing this social commentary is *also* left as an exercise for the reader.

9.1.4 On “SOUP”

The stupid-looking “SOUP” image on the display is present because VARIK is uncertain of whether or not the original image can be included freely in the drawing. To prevent a lawsuit or the threat of a lawsuit, a “description” of the possibly copyrighted image replaces the possibly copyrighted image.

“[D]escription” is written in inverted commas because this “description” is not terribly descriptive. A relatively descriptive description of the original image is “a heavily-compressed photograph of a bowl of alphabet soup”.

9.1.5 Warning Label

The full text of the warning label is as follows:

WARNING

Attempting to service this device may result in bodily harm. The device is safe, but our servicemen have pipe wrenches and want your money.

9.1.6 Keyboard

In the depicted scene, VUNC uses a keyboard. However, this keyboard is not visible, and VUNC’s use of this keyboard could probably be relatively well indicated.

9.1.7 Criticism

As ever, criticism is welcomed.

9.1.8 Licence

This drawing is released in accordance with the CC BY-NC 4.0 licence. The full text of this licence is available at <https://creativecommons.org/licenses/by-nc/4.0/legalcode>.

9.1.9 Tools Used

This drawing is created using GIMP. GIMP is terrible but seems to be the best open-source drawing software.

This description is written using ed(1).

Both GIMP and ed(1) are run on OpenBSD.

9.2 Faults

The chair on which VUNC sits lacks detail.

9.2.1 Chair

The chair which VUNC uses lacks detail; the material of the chair is ambiguous. The design of the chair is mostly style-based, as VARIK strongly likes brutalist architecture; however, regardless of the style, the chair just looks a bit cheesy.

Chapter 10

ITHINKWEREGOING- CRAZY

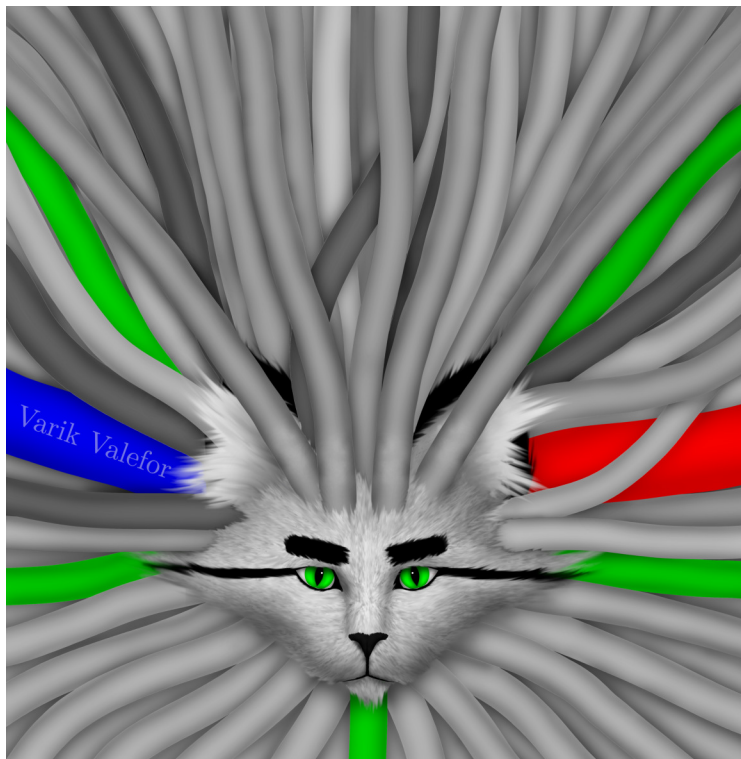

Figure 10.1: “ITHINKWEREGOINGCRAZY”.

10.1 The Original Description of the Drawing

BLOCKED BY SHODAN LEVEL SECURITY.

10.1.1 “What the Hell am I Looking At?”

This drawing depicts VARIK’s character’s being connected to some cables and having a neutral facial expression a la *System Shock*’s SHODAN.

10.1.2 Timing

December apparently has at least one (1) drawing, as well.

10.1.3 History

The Sketch

Approximately fifteen (15) quintillion years ago, VARIK reveals a sketch which features VUNC hooked up to some cables a la *System Shock*’s SHODAN.

The First Attempted Conversion

In early 2021, VARIK begins to convert this sketch into a “proper” drawing. However, before VARIK backs up the drawing, VARIK accidentally deletes the master boot record of the hard disk drive of VARIK’s terminal. As a result of this mistake, the original version of the “proper” drawing is probably lost forever.

The Second Attempted Conversion

On 20210411, VARIK begins the process of converting the sketch into a “proper” drawing by adding the un-furred outlines of VUNC to a Scalable Vector Graphics file. This process is finished with minimal “hiccups”.

Attempting to Add Detail

Circa 20210602, VARIK converts the aforementioned SVG file into an XCF file and begins to add some detail. For some reason, such detail is added before the cables are added.

Although few “real” problems are encountered, VARIK does not particularly care for the end result of the addition of such detail and pauses the creation of the drawing.

Successfully Adding Detail

On 20211127, VARIK resumes the creation of the drawing. VARIK encounters few “real” problems but again concludes that GIMP can be a real turd...figuratively.

Finishing the Drawing

On 20211201, VARIK declares that this drawing is finished.

10.1.4 On this Drawing’s Nature as an Amalgamation

System Shock’s SHODAN SHODAN serves as the direct inspiration of the creation of the SHODAN-“inspired” parts of this drawing. However, VARIK uses no particular SHODAN design as a reference whilst creating this drawing; VARIK bases this drawing upon a mental combination of SHODAN’s *System Shock* and *System Shock 2* designs.

10.1.5 Criticism

As ever, criticism is welcomed.

10.1.6 Licence

This drawing is released in accordance with the CC BY-NC 4.0 licence. The full text of this licence is available at <https://creativecommons.org/licenses/by-nc/4.0/legalcode>.

10.1.7 Tools Used

This drawing is created using GIMP. GIMP is terrible but at least beats Krita.

This description is written using ed(1).

Both GIMP and ed(1) are run on OpenBSD.

10.2 Eyestrain

There exists a subset of all prenu K such that for all $a \in K$, a claims that a ’s viewing of “ITHINKWEREGOINGCRAZY” results in the eyestrain of a . VARIK suspects that prenu of K are exaggerating things or have some weird eye problem; VARIK is incapable of finding any particular source of the eyestrain.

10.3 Reception

In short, “ITHINKWEREGOINGCRAZY” is relatively unpopular...possibly because the “source material” of “ITHINKWEREGOINGCRAZY” is a bit obscure.

10.3.1 Description of Reception

The mean warmth of the reception of “ITHINKWEREGOINGCRAZY” is less than the mean of the warmths of the reception of all drawings which VARIK creates.

10.3.2 Possible Cause of Lukewarm Reception

VARIK suspects that the relatively lukewarm reception of “ITHINKWEREGOINGCRAZY” may be a result of the relatively obscure nature of “ITHINKWEREGOINGCRAZY”.

Theorem 1. *“ITHINKWEREGOINGCRAZY” likely has a lukewarm reception.*

Proof.

For all things a , for all drawings b , for all prenu m , b is a parody of a only if (m fully understands b only if m is familiar with a).

For all drawings b , few prenu fully understand b only if b likely has a lukewarm reception.¹

Few prenu are familiar with *System Shock*.²

“ITHINKWEREGOINGCRAZY” is a parody of *System Shock*.

Therefore, “ITHINKWEREGOINGCRAZY” likely has a lukewarm reception. $\square$

¹The reader should probably take this statement with the proverbial grain of salt.

²“Few” may be an understatement.

Chapter 11

JUDASTRAINWRECK

Figure 11.1: “JUDASTRAINWRECK”.

11.1 The Original Description of the Drawing

VARIK finds that the facepalm is a beautiful thing.

11.1.1 Summary

There exists a paper sketch such that this paper sketch becomes a vector drawing which becomes *this* drawing.

The text boxes are paraphrased versions of messages which VARIK has actually received. POINT AND LAUGH!

This drawing is released in accordance with the CC BY-NC 4.0 licence.

Run OpenBSD, lamer.

11.1.2 Sketch-to-Proper Drawing Pipeline

VARIK creates the original sketch with the sole intent of drawing *something*, as opposed to creating a specific thing.

VARIK converts the original sketch into a vector drawing with the intent of creating something which looks cool.

VARIK draws the current version of the drawing with the intent of having a laugh at the expense of some prenu who ask stupid questions...or have some ridiculous thought processes.

11.1.3 On the Text Boxes

The text boxes which surround VUNC's head contain paraphrased versions of messages which have been sent to VARIK.

After repeatedly unintentionally re-enacting SIDESHOW BOB's rake-induced groaning, VARIK decides that publicly mocking such prenu such that these prenu remain anonymous may lead to some laughs.

11.1.4 Licence

This drawing is released in accordance with the CC BY-NC 4.0 licence. The full text of this licence is available at <https://creativecommons.org/licenses/by-nc/4.0/legalcode>.

11.1.5 Tools Used

This drawing is created using GIMP. GIMP is terrible but at least beats Krita.

This description is written using ed(1).

Both GIMP and ed(1) are run on OpenBSD.

11.2 Reception of the Drawing

Few prenu publicly provide criticism regarding “JUDASTRAINWRECK”...or publicly express such men’s approval of “JUDASTRAINWRECK”.

11.2.1 Some Thoughts Regarding the Drawing

Some thoughts regarding “JUDASTRAINWRECK” are as follows:

- “In ‘JUDASTRAINWRECK’, VUNC appears to be a plush toy...possibly because the character bears an excessive amount of fur.”
 - VARIK disagrees with the preceding statement.
- “The subject of ‘JUDASTRAINWRECK’ is unclear.”
 - VARIK somewhat agrees with the preceding statement.
- “‘JUDASTRAINWRECK’ is cute.”
 - VARIK has no real opinion regarding the preceding statement.

11.3 Hands

“JUDASTRAINWRECK” indicates that VUNC’s fingers are short. However, VUNC’s fingers are really *not* particularly short; “JUDASTRAINWRECK” just depicts VUNC’s hand poorly.

11.4 Versions of the Drawing

11.4.1 “JUDASTRAINWRECK-NOHANDLEBARS”

“JUDASTRAINWRECK-NOHANDLEBARS” is a version of “JUDASTRAINWRECK” which does not depict VUNC’s arm.

Figure 11.2: A version of “JUDASTRAINWRECK” which does not depict VUNC’s arm is revealed.

Chapter 12

“THROWTHOSEPIC- TURESDOWNTHELANE”

12.1 The Actual Drawing

12.2 The Original Description

12.2.1 Executive Summary

VARIK ends a hiatus and reveals a NEW DRAWING!!!

In this drawing, VUNC throws a weird, red, spiked discus which happens to feature a lambda.

VARIK creates this drawing partially because VARIK wishes to celebrate releasing stuff into the public domain...and advertise Matel.

VARIK struggles to add grass to this drawing.

This drawing is released into the public domain...like VARIK’s other drawings.

Criticism is still requested.

This drawing is created using GIMP, OpenBSD, and a God-damned trackpad.

12.2.2 Return from Hiatus

After falling ill and forgetting to complete February’s drawing, VARIK reveals a new drawing. In this case, the drawing is called “THROWTHOSEPICTURES-DOWNTHELANE”.

Figure 12.1: This caption contains no joke.

12.2.3 Description of Drawing

This drawing depicts VUNC's throwing of a discus which is really just the logo of Matel, which is a software project for which VARIK is responsible. Men who may have some interest in Matel may be pleased to know that Matel's source code is hosted at <https://github.com/varikvalefor/matel>.

12.2.4 Motivation

This drawing is partially a celebration of VARIK's having slam-dunked Matel into the public domain.

12.2.5 Grass

This drawing features grass, which VARIK rarely draws.

VARIK's adding of fur to this drawing demands a decent bit of time.

VARIK attempts to add grass by modifying VARIK's fur-drawing process such that the result resembles grass. VARIK has no strong opinion regarding this

result but finds that the result SHOULD be somewhat acceptable.

12.2.6 Public Domain Stuff

“THROWTHOSEPICTURESDOWNTHELANE” is released in accordance with the Unlicense <<https://unlicense.org>>.

VARIK admits that the extent to which the Unlicense is suitable for software stuff is greater than the extent to which the Unlicense is suitable for drawings. However, VARIK still uses the Unlicense; VARIK strongly likes the terseness of the Unlicense and has some disdain for the length of the CC0 and similar things.

Additionally, all drawings which VARIK has previously released are now released in accordance with the same Unlicense.

Additionally still, most THINGS which VARIK creates are being thrown into the public domain.

12.2.7 Criticism

VARIK requests useful criticism regarding this drawing.

Similarly, VARIK does not particularly desire vague compliments.

Examples of useless criticism include “I dislike this”, which could be interpreted as “I dislike the subject matter” or “I dislike your depiction of the subject matter”.

12.2.8 Tools Used

As usual, VARIK creates this drawing using GIMP, OpenBSD, and a cheesy-ass trackpad. One advantage of drawing using a cheesy-ass trackpad is being able to get some sick bragging rights about which no one really cares.

12.3 VARIK’s Own Criticism

A subset of VARIK’s findings regarding “THROWTHOSEPICTURESDOWNTHELANE” is as follows:

- The grass which “THROWTHOSEPICTURESDOWNTHELANE” depicts resembles fur.
- VUNC’s eyes lack detail.

12.3.1 Grass’s Resemblance to Fur

VARIK finds that the grass which “THROWTHOSEPICTURESDOWNTHELANE” depicts resembles fur. VARIK suspects that this resemblance is a result

of VARIK's having used a modified version of VARIK's fur-drawing technique to draw the grass which "THROWTHOSEPICTURESDOWNTHELANE" depicts. But VARIK requests a "second opinion" regarding the extent to which the grass resembles fur.

12.3.2 VUNC's Eyes' Lack of Detail

"THROWTHOSEPICTURESDOWNTHELANE" consists of $25 \cdot 10^6$ pixels...but still lacks some detail which would be specific to VUNC's eyes. "THROWTHOSEPICTURESDOWNTHELANE" indicates that VUNC's eyes lack visible blood vessels and iris striations. VARIK finds that forgetfulness is a curse.

12.4 Criticism from Other Prenu

Some prenu who are not VARIK have offered criticism regarding "THROWTHOSEPICTURESDOWNTHELANE". A subset of the paraphrasings of such criticisms is as follows:

- "VUNC's arms are excessively long."
- "The thing on which VUNC stands is excessively black."
- "The grass which is farthest from the 'camera' is excessively bright."
- "VUNC's legs are excessively short."
- "The lowest left 'spike' of VUNC's 'waistcoat' is excessively visible."
- "VUNC's left leg is excessively visible."
- "VUNC looks like a friggin' robot."

12.4.1 The Length of VUNC's Arms

Some prenu claim that "THROWTHOSEPICTURESDOWNTHELANE" indicates that VUNC's arms are excessively long. VARIK *somewhat* agrees with the aforementioned claim...but finds that the apparent length of VUNC's arms is likely just a result of VUNC's pose which "THROWTHOSEPICTURESDOWNTHELANE" depicts. However, VARIK *does* admit that in "THROWTHOSEPICTURESDOWNTHELANE", VUNC's arms may just be excessively long.

12.4.2 The Darkness of the Floor or Whatever

Some prenu claim that the thing on which VUNC stands is excessively black. VARIK disagrees with the aforementioned claim; the thing on which VUNC stands is intentionally excessively black.

12.4.3 The Brightness of the Grass

Some prenu assert that the grass which is farthest from the “camera” is excessively bright and assert that this grass should be darkened. VARIK somewhat agrees with the aforementioned claim.

12.4.4 The Length of VUNC’s Legs

Some prenu claim that “THROWTHOSEPICTURESDOWNTHELANE” indicates that VUNC’s legs are excessively short. As of the writing of the current sentence, VARIK disagrees with the aforementioned claim; VARIK finds that the ratio of the length of VUNC’s legs and the length of VUNC’s torso is acceptable.

12.4.5 The Positioning of the Stripes of VUNC’s “Waistcoat”

Some prenu claim that the lowest left “spike” of VUNC’s “waistcoat” is placed excessively high and claim that the aforementioned stripe should be drawn on VUNC’s left thigh. VARIK agrees with both points. ‘

12.4.6 The Visibility of VUNC’s Left Leg

Some prenu claim that (in “THROWTHOSEPICTURESDOWNTHELANE”, VUNC’s left leg is excessively visible) and that (in “THROWTHOSEPICTURES-DOWNTHELANE”, VUNC’s left leg *should* be behind VUNC’s right leg). VARIK again agrees with both points.

12.4.7 VUNC’s Alleged Robotic Appearance

Some prenu claim that “THROWTHOSEPICTURESDOWNTHELANE” depicts VUNC’s taking a static, “robotic” pose. VARIK somewhat agrees with the aforementioned claim...but asserts that the “robotic” pose of VUNC can be a joke regarding some men’s tendency to jokingly claim that VARIK is a robot.

Chapter 13

FAXMACHINEANTHEMS

13.1 The Image

Figure 13.1: The thing depicts the eye (of VUNC), which reflects the Agda stuff of `shat(1)`.

13.2 The 1st Description

“BLACKHOLEBLACKHOLE” depicts that VUNC holds the agender flag...and stares at the camera or whatever. A Copperplate/Zbaler-morna thing for “ni’o na nabmi fa lo nu trangenì” is “in” the image. A translation is “being transgender is not a problem”.

The justification is that VARIK is agender and desires that VARIK does (for Pride Month) something. That (VARIK does Pride Month stuff) is rare.

VARIK uses (for the process of drawing “BLACKHOLEBLACKHOLE”) Krita and a Wacom Intuos Pro.

9.8 exceeds or equals the hour-based duration of the process (of drawing “BLACKHOLEBLACKHOLE”); 9.8 is the sum of the durations of the drawing videos, but false is that all events of recording are events of drawing.

VARIK welcomes criticism.

The Unlicense is the license of “BLACKHOLEBLACKHOLE”. But VARIK very requests that “BLACKHOLEBLACKHOLE” is not used for hateful stuff.

13.3 The Reflection

The thing depicts that the eye (of VUNC) reflects a part of the Agda definition of “muvipas”, which is a proof of that `shat(1)`, which is a text-“editing” program, supports “moving” lines. But difficult is that VARIK writes an English definition. The difficulty and whatnot justify that VARIK likes Agda. But frequent is that VARIK “edits” the thing.

Chapter 14

DELIRIUMSEQUELS

14.1 le pixra

“DELIRIUMSEQUELS” “is” figure 14.1 on page 45.

14.2 The 1st Description

VARIK attempts that VARIK quickly draws that VUNC falls, holds a keyboard, *and* has fur and whatnot. VARIK welcomes criticism.

The Unlicense is the license.

14.3 Quickly Drawing

VARIK attempts that VARIK is quickly draws the non-fur part of the body of VUNC. The result of the attempt is figure ?? on page ??, which “becomes” the image of figure 14.1 on page 45.

14.4 DELIRIUMSEQUELS-KB

“DELIRIUMSEQUELS” precedes “DELIRIUMSEQUELS-KB”. But “DELIRIUMSEQUELS-KB” exceeds (in resembling the sketch and in the slowness of drawing) “DELIRIUMSEQUELS”.

14.4.1 The Image

“DELIRIUMSEQUELS-KB” “is” figure 14.3 on page 47.

14.4.2 The Justification of Preceding

“DELIRIUMSEQUELS”, which is inferior to “DELIRIUMSEQUELS-KB”, precedes “DELIRIUMSEQUELS-KB” because VARIK desires that VARIK does not draw all keys of the keyboard which is held by VUNC.

But VARIK holds the keyboard (which is used by VARIK), because VARIK desires that VARIK discovers things regarding holding the keyboard. VARIK realizes that (drawing all keys is unnecessary, because VARIK holds the keyboard such that the keys face the head). Accordingly, the keys are not visible.

14.4.3 The Keyboard

VARIK attempts to draw a keyboard which resembles the Model M which is used by VARIK. But “DELIRIUMSEQUELS-KB” depicts the non-key part of the keyboard, and depicting the non-key part of the keyboard facilitates a lack of obvious resemblance...and that VARIK does not much attempt. The thing amuses VARIK.

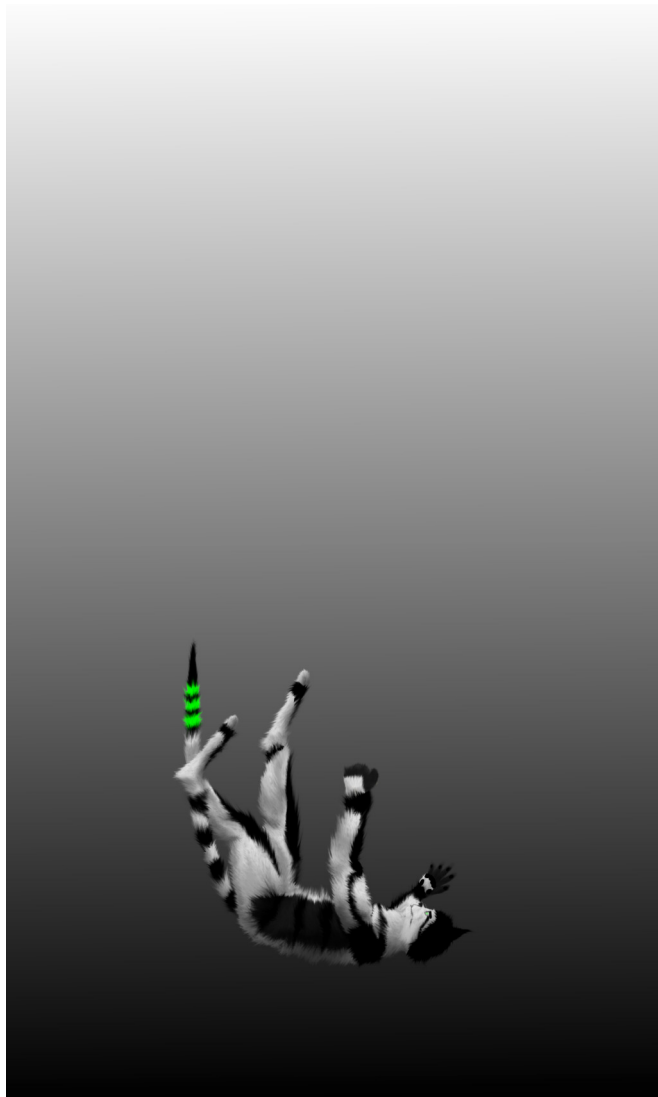

Figure 14.1: The thing depicts that VUNC falls.

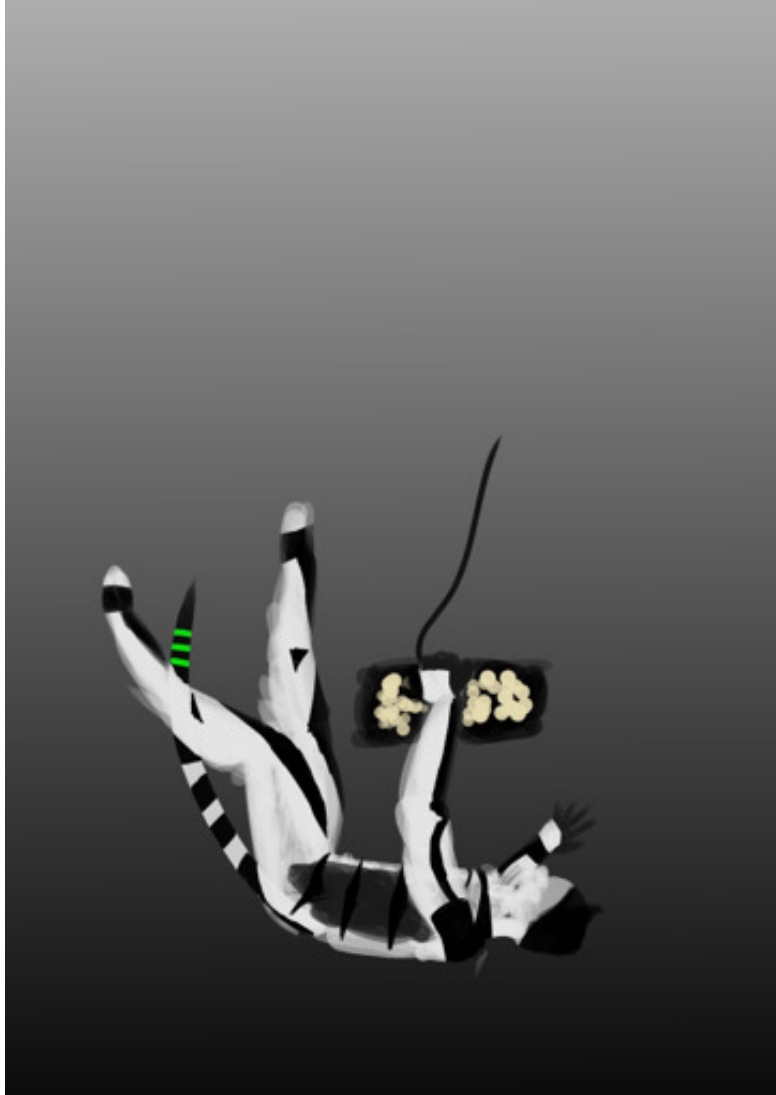

Figure 14.2: The thing depicts that VUNC falls, holds a keyboard which is badly drawn by VARIK, and lacks fur.

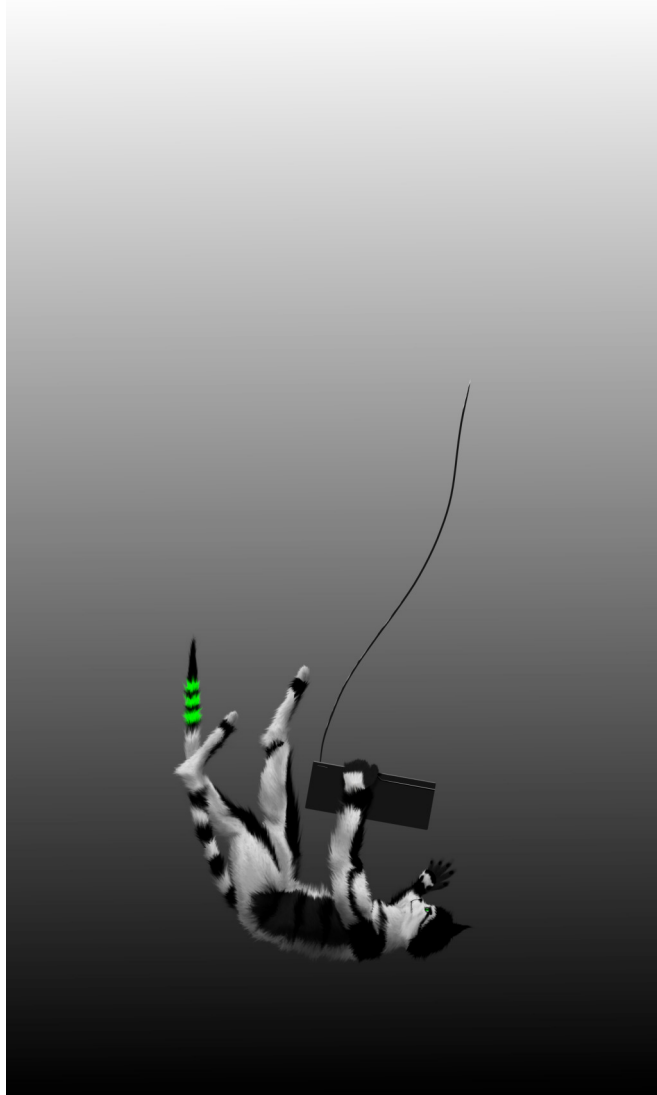

Figure 14.3: The thing depicts that VUNC falls and holds a keyboard. Additionally, VARIK hopes that the thing excellently depicts the fur of VUNC.

Chapter 15

BLACKHOLEBLACKHOLE

15.1 The Image

“BLACKHOLEBLACKHOLE” “is” figure 15.1 on page 51.

15.2 The 1st Description

“BLACKHOLEBLACKHOLE” depicts that VUNC holds the agender flag...and stares at the camera or whatever. A Copperplate/Zbaler-morna thing for “ni’o na nabmi fa lo nu trangen” is “in” the image. A translation is “being transgender is not a problem”.

The justification is that VARIK is agender and desires that VARIK does (for Pride Month) something. That (VARIK does Pride Month stuff) is rare.

VARIK uses (for the process of drawing “BLACKHOLEBLACKHOLE”) Krita and a Wacom Intuos Pro.

9.8 exceeds or equals the hour-based duration of the process (of drawing “BLACKHOLEBLACKHOLE”); 9.8 is the sum of the durations of the drawing videos, but false is that all events of recording are events of drawing.

VARIK welcomes criticism.

The Unlicense is the license of “BLACKHOLEBLACKHOLE”. But VARIK very requests that “BLACKHOLEBLACKHOLE” is not used for hateful stuff.

15.3 Git

VARIK forgets to state that (“BLACKHOLEBLACKHOLE” resembles many drawings which are created by VARIK, because VARIK uses (for remembering the history of “BLACKHOLEBLACKHOLE”) Git. Additionally, unlikely is that VARIK publishes the Git history of “BLACKHOLEBLACKHOLE”.

15.4 The Flaws

VARIK opines that...

- “BLACKHOLEBLACKHOLE” depicts that the philtrum of VUNC is excessively large.
- “BLACKHOLEBLACKHOLE” depicts that the large fur of the cheeks of VARIK is not very detailed.
- “BLACKHOLEBLACKHOLE” does not depict light on the nose of VUNC.

15.4.1 Philtrum Problem

VARIK opines that “BLACKHOLEBLACKHOLE” depicts that the philtrum of VUNC is excessively large.

15.4.2 Cheek Detail

VARIK opines that (“BLACKHOLEBLACKHOLE” fuckedly depicts the large fur of the cheeks of VUNC), because observing the fur detail is difficult.

15.4.3 Nose Light

VARIK dislikes that (“BLACKHOLEBLACKHOLE” depicts no shadows of the nose of VUNC) and that “BLACKHOLEBLACKHOLE” does not depict light on the top of the nose of VUNC. The image does not facilitate observing the philtrum part of the nose of VUNC.

15.5 The 2nd Version which is Published by VARIK

15.5.1 The Image

The 2nd version “is” figure ?? on page ??.

15.6 Profile Image

20250530 is the date of that VARIK begins that (some version (of “BLACKHOLEBLACKHOLE”) v exists such that v is the profile image which is used

by VARIK). Using “some version” is justified by that (2 versions v exist such that VARIK uses (for creating a profile image) v).

20250628 is a date of that (the profile image of VARIK is the image of figure 15.3 on page 53, which is created by VARIK and from the image of figure ?? on page ??).

The “BLACKHOLEBLACKHOLE” image, a.k.a. “ B ”, “replaces” (as the profile image of VARIK) the “JUDASTRAINWRECK” image, a.k.a. “ J ”. VARIK likes the “replacement”; J exceeds (in being an aggressive thing) B , and VARIK desires a non-aggressive thing.

15.6.1 Differences

The proof of that (the 1st (public version) of “BLACKHOLEBLACKHOLE-SFW”, a.k.a. “ T_1 ”, differs from the 2nd (public version) of “BLACKHOLEBLACKHOLE-SFW”, a.k.a. “ T_2 ”) is relevant to...

- that (T_2 exceeds (in depicting shadows) T_1) and
- that (T_2 exceeds (in depicting fur detail) T_1).

Shadows

T_2 depicts (in facilitating observing the shadows of the torso of VUNC) T_1 . The fur stuff “decreases” the shadows of the version which does not depict the fur.

Fur “Improvement”

T_2 exceeds (in facilitating observing the small fur) T_1 . The cause of the exceeding is that (VARIK “increases” the opacity of the layer)...or that (some layer l exists such that l is “replaced” by an overlay layer (for l) and a multiply layer for l).

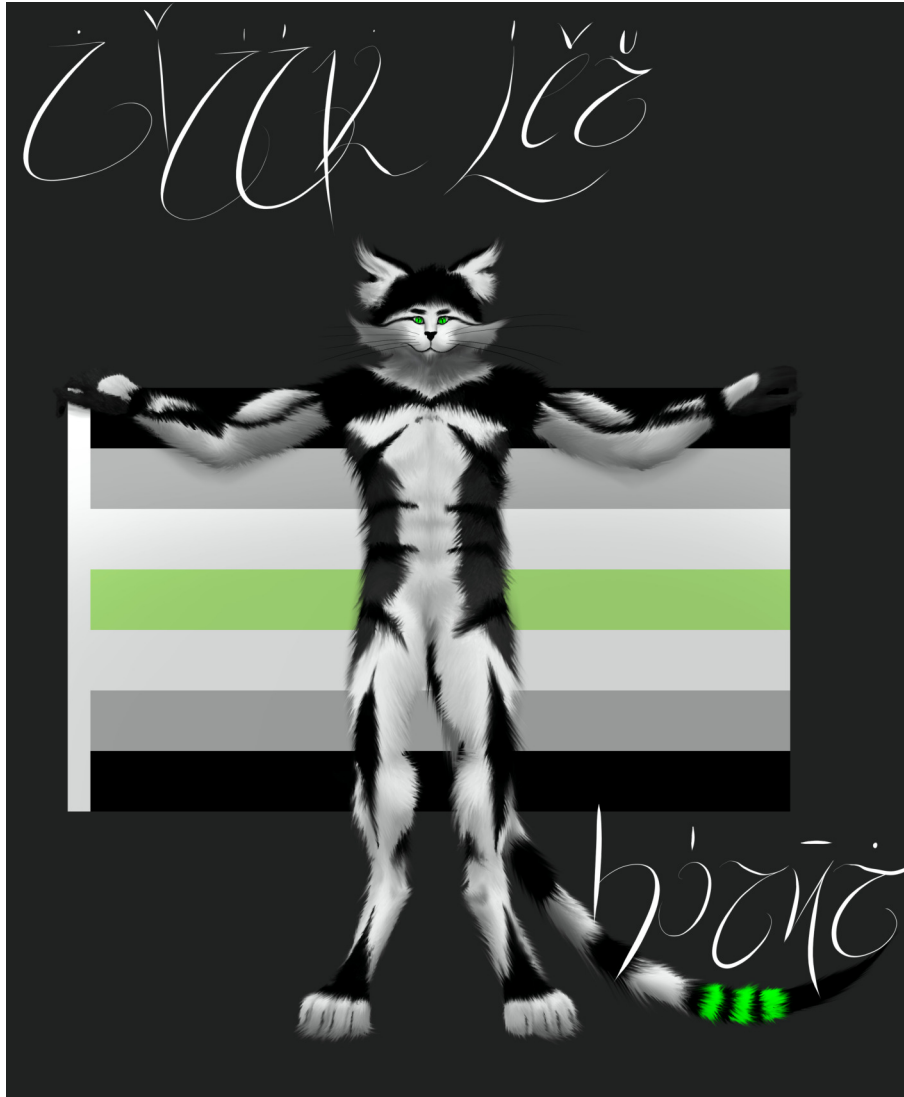

Figure 15.1: The thing is a “SFW” depiction of that VUNC holds the agender flag.

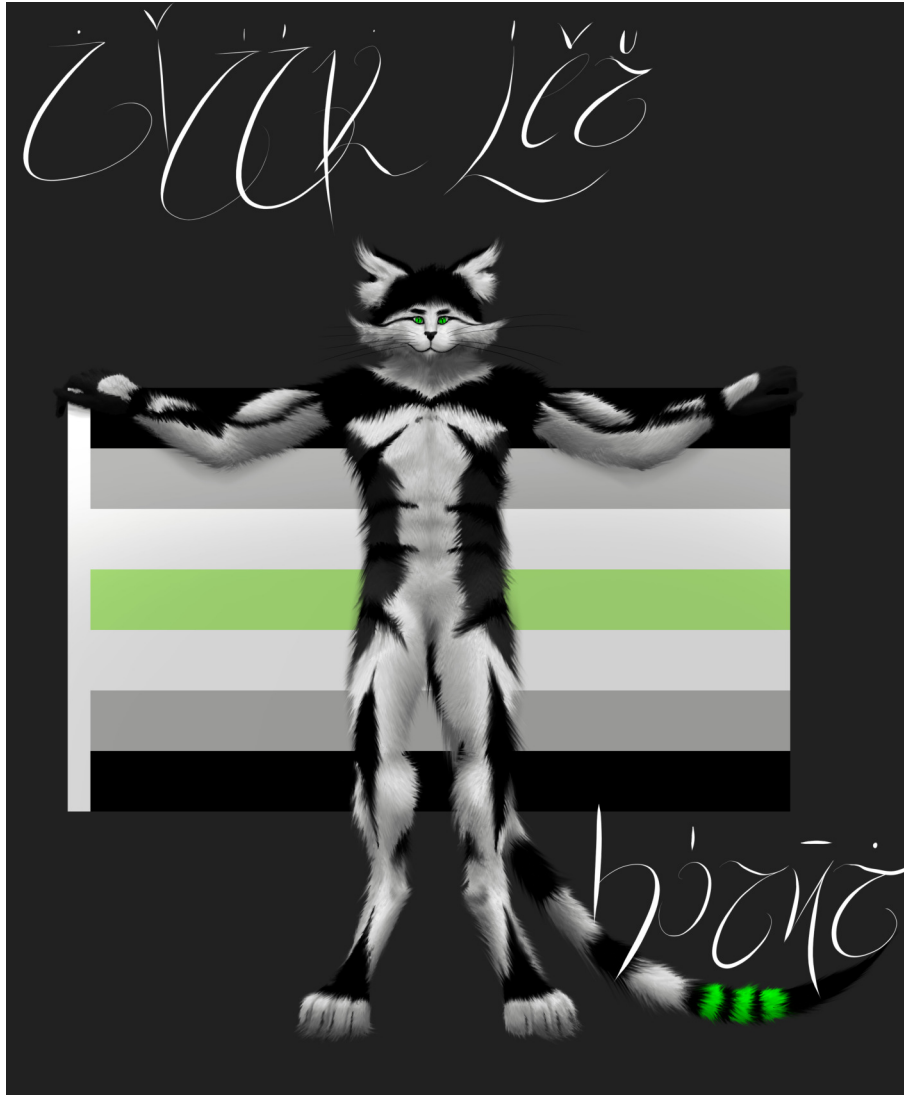

Figure 15.2: The thing is the 2nd “SFW” version (of “BLACKHOLEBLACKHOLE”) which is public.

Figure 15.3: The thing is the 20250601 version of the profile image thing of “BLACKHOLEBLACKHOLE”...and depicts that behind the head of VUNC is an agender flag which is askew.

Chapter 16

BLINDDATEATTHEWAX-MUSEUM

16.1 The Image

“BLINDDATEATTHEWAXMUSEUM” “is” figure 16.1 on page 57.

16.2 The 1st Description

The thing depicts that VUNC holds a BLÅHAJ, lies down, and is in a server room or something. Additionally, the thing is the first blur drawing which is created by VARIK.

VARIK uses (for drawing) Krita. VARIK uses (for blurring) GIMP.

VARIK welcomes criticism.

The Unlicense is the licence.

16.3 The Name

The first name of “BLINDDATEATTHEWAXMUSEUM” is “NIGHTINATTHEWAXMUSEUM”, which is a corruption of “BLIND DATE AT THE WAX MUSEUM”, which is a lyric of “Arabian Nights”, which is a song and is created by BECK. VARIK incorrectly remembers that “NIGHT IN AT THE WAX MUSEUM” is a lyric of “Arabian Nights”.

That (VARIK discovers about the bogus lyric) precedes that VARIK “changes” the name.

16.4 The Painting Thing

“BLINDDATEATTHEWAXMUSEUM” is the 2nd (large drawing) t which is created by VARIK such that VARIK “paints” t . The “painting” process is that (VARIK draws without lines, and the sketch is shaded).

16.5 Flaws

VARIK opines that flaws of the image include...

- that (the image does not depict a shadow on the cheek part of the face of VUNC) and
- that (the image does not depict the whiskers of VUNC).

16.5.1 Cheek Shadow Thing

“BLINDDATEATTHEWAXMUSEUM”, a.k.a. “ T ”, does not depict a shadow of the cheek part (of the face of VUNC) which is “above” the nose of VUNC. T should (per VARIK) depict the shadow. The justification of the depiction is that (T depicts that the nose part of the face of VUNC exceeds (in proximity to the source of light) the cheek part, and that for all objects A , for all objects B , for all sources (of light) C , if A exceeds (in proximity to C) B , then A exceeds (in being illuminated) B .

16.5.2 Whisker Thing

VARIK intends that “BLINDDATEATTHEWAXMUSEUM” is the 2nd (large drawing) which depicts the whiskers of VUNC. But “BLINDDATEATTHEWAXMUSEUM” does not depict the whiskers of VUNC. The cause of not depicting is that VARIK forgets. Forgetting is facilitated by that (many drawings t exist such that t does not depict the whiskers of VUNC, and that (VARIK draws t) precedes that VARIK draws “BLINDDATEATTHEWAXMUSEUM”).

16.6 “Creep[iness]”

Many prenu p exist such that p states that “BLINDDATEATTHEWAXMUSEUM” is creepy to p .

VARIK is uncertain of the cause of the creepiness.

Possible is that (if VARIK resembles in being “creeped out”, then VARIK “moves” the thing to “Flaws”). But VARIK does not resemble in being “creeped out”.

16.7 The 2nd (“Completed” Version) which is Public

The image of figure 16.2 on page 58 is the 2nd (“completed” version) of “BLIND-DATEATTHEWAXMUSEUM”, is called “BLINDDATEATTHEWAXMUSEUM-WHISK”, and depicts the whiskers (of VUNC) and the shadow of the cheek (of VUNC) which is “above” the nose of VUNC.

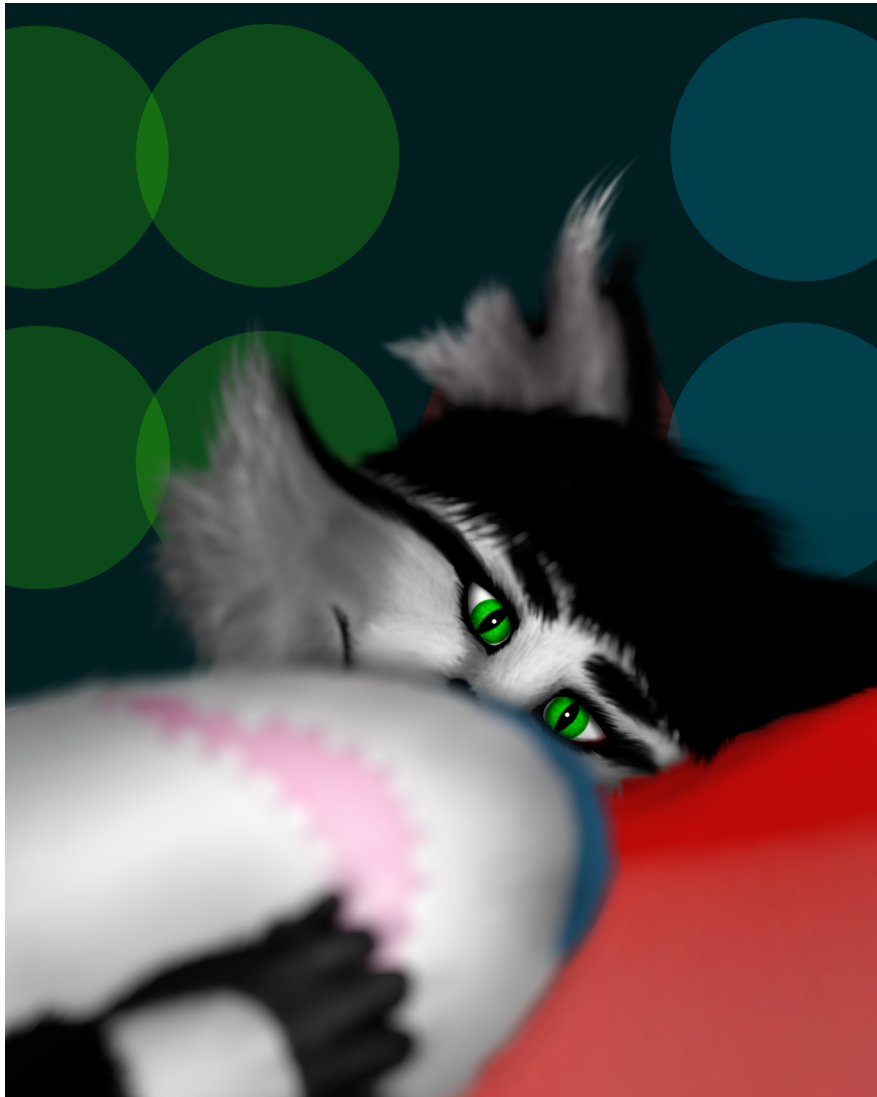

Figure 16.1: The thing depicts that VUNC holds the BLÅHAJ.

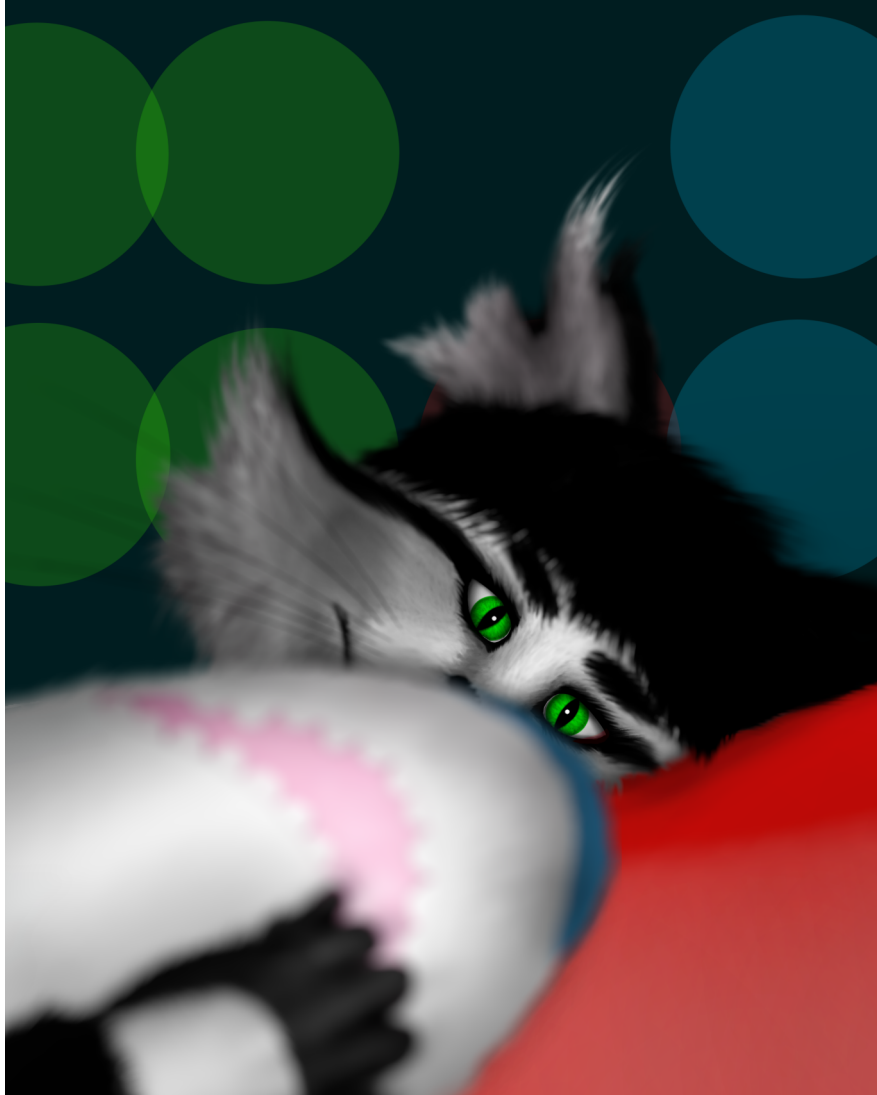

Figure 16.2: VARIK hopes that the original exceeds (in being flawed) the image, which is the 2nd version of “BLINDDATEATTHEWAXMUSEUM”.

Chapter 17

WEDANCEALONETHISWAY

17.1 le pixra

“WEDANCEALONETHISWAY” “is” figure 17.1.

Figure 17.1: The thing depicts that VUNC reclines and is below the agender flag.

17.2 The 1st Description

“WEDANCEALONETHISWAY” depicts that (VUNC reclines on a stone-or-whatever couch and stares at the camera or whatever, and the agender flag is draped on the top part of the couch and prevents seeing a part of the torso of VUNC).

That (Pride Month continues) justifies that (that (VARIK draws queer stuff) continues).

VARIK is not certain about the face. VARIK opines that “WEDANCEALONETHISWAY” depicts that the face of VUNC is excessively large. VARIK particularly opines that “WEDANCEALONETHISWAY” depicts that the eyes of VUNC are excessively large. But that (VARIK changes) is possible.

VARIK requests describing the flaws of “WEDANCEALONETHISWAY”; VARIK desires improvement.

VARIK uses (for drawing) Krita.

VARIK is not certain about the duration of the process of drawing.

The Unlicense is the licence of “WEDANCEALONETHISWAY”. VARIK welcomes using (for non-hateful stuff) “WEDANCEALONETHISWAY”.

17.3 The Sketches

17.3.1 The 1st Sketch

The 1st sketch “is” figure 17.2.

Figure 17.2: The thing is the 1st sketch (of “WEDANCEALONETHISWAY”) which is published by VARIK. VARIK knows that the thing is small.

17.3.2 le re moi

The thing is figure 17.3 on the following page.

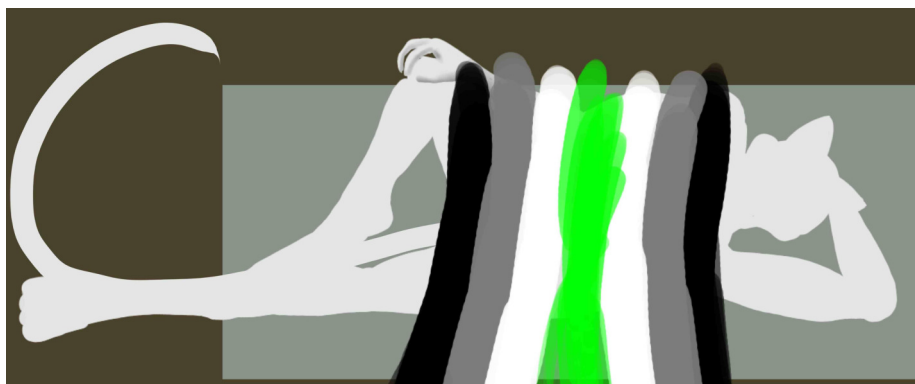

Figure 17.3: The thing is the 2nd sketch (of “WEDANCEALONETHISWAY”) which is published by VARIK.

17.3.3 The Final (or Whatever) (Sketch or Whatever) which Does Not Depict Fur

figure 17.4 “is” T , which is the final (or whatever) (sketch or whatever) (for “WEDANCEALONETHISWAY”) which does not depict fur. Additionally, T depicts that the agender flag is transparent. A thing which is possible is that T facilitates discovering flaws of “WEDANCEALONETHISWAY”. VARIK desires discovering the flaws.

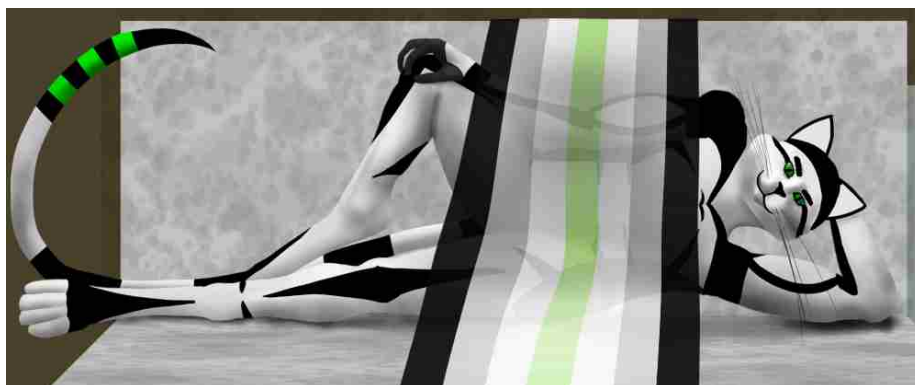

Figure 17.4: The thing is the final (or whatever) version which does not depict fur.

17.4 The Flaws

Alleged flaws of “WEDANCEALONETHISWAY”, a.k.a. “ W ”, include

- that (for some parts (of W) p , difficult is determining whether p depicts the tail (of VUNC) or the right leg of VUNC)and
- whatnot.

17.4.1 The “Tail or Leg” Problem

A prenu p states (to VARIK) that (for some parts (of W) p , difficult (for p) is determining whether p depicts the tail (of VUNC) or the right leg of VUNC).

VARIK opines that the difficulty is caused by that (perfectly dark are some parts (of the tail) and some parts of the leg).

VARIK does not perfectly resemble in struggling. But VARIK draws “WE-DANCEALONETHISWAY, and change is possible.

Chapter 18

The POSTAL Sketch

18.1 The Image

The thing “is” figure 18.1 on page 65.

18.2 The 1st Description

A translation of the 1st description of the POSTAL sketch is as follows:

VARIK is uncertain of the justification for drawing the thing. VARIK likes POSTAL.

Possible is that the thing is relevant to that many things t exist such that that (VARIK is weird) justifies that t fears VARIK. Stuff applies, and VARIK non-violently plays *Postal 2*.

Possible is that VARIK is angry. VARIK desires that VARIK is not angry. But if the thing is angry, then good or whatever is knowing that the thing is angry.

18.3 le cfla

Alleged flaws of the POSTAL sketch, a.k.a. “ S ”, include...

- that (S does not depict the tail of VUNC) and
- that (S does not depict the whiskers of VUNC).

18.4 Not Depicting the Tail

A flaw of S is that S depicts all parts (of the body of VUNC) p such that (S should depict p , p is a SFW thing, and p is not the tail of VUNC).

Theorem 2. *S does not depict the tail of VUNC.*

Proof. If appropriate stuff happens, and VARIK forgets to draw the tail of VUNC, then S does not depict the tail of VUNC.

VARIK forgets to draw the tail of VUNC.

Appropriate stuff happens.

Therefore, S does not depict the tail of VUNC. □

18.5 Not Depicting the Whiskers

A flaw (or something) of S is that S depicts 0 whiskers of VUNC. But that (not depicting whiskers indicates craziness) and that (the smallness of the whiskers is sufficient for not depicting the whiskers) are possible.

But VARIK does not very like that the whiskers are not depicted. Somewhat likely is that VARIK dislikes that the whiskers are not depicted.

Figure 18.1: The thing depicts that VUNC resembles P DUDE.

Chapter 19

TAKINGTURNSBREAK- INGWORDS

19.1 The Image

“TAKINGTURNSBREAKINGWORDS” “is” figure 19.1.

Figure 19.1: The thing depicts that VUNC holds (with the foot of VUNC) a mug.

19.2 The 1st Description

“TAKINGTURNSBREAKINGWORDS” depicts that VUNC is in front of an abstract (letter wall), thinks (or whatever), and holds (with the foot of VUNC) an agender flag cup. The combination of Pride Month and whatnot justifies using the agender flag.

That (“TAKINGTURNSBREAKINGWORDS” amuses VARIK) justifies that VARIK draws “TAKINGTURNSBREAKINGWORDS”.

“TAKINGTURNSBREAKINGWORDS” is the 2nd drawing (which is created by VARIK) t such that VARIK uses (for facilitating the sketch of t) Blender.

That (VARIK welcomes describing the flaws of the images which are created by VARIK) continues.

The Unlicense is the license. VARIK welcomes using (for non-hateful stuff) “TAKINGTURNSBREAKINGWORDS”.

19.3 Versions

19.3.1 The Internet Meme Thing

The Internet meme version of “TAKINGTURNSBREAKINGWORDS” “is” figure 19.2 on the following page.

19.3.2 The 1st (Fur Sketch)

figure 19.3 on page 69 .zoi`is” the 1st sketch (for “TAKINGTURNSBREAKINGWORDS”) which depicts the fur of VUNC. That (VARIK desires that VARIK determines whether VARIK desires the creation of a large drawing) justifies that VARIK creates the sketch. That (the sketch sucks) amuses VARIK.

19.3.3 The Blender Sketch/Whatever

The Blender sketch/whatever, a.k.a. “ B ”, “is” figure 19.1 on the preceding page. That (VARIK uses B) is justified by that (perspective drawing is fuckedly difficult for VARIK) joi/and whatnot.

19.4 Flaws

Alleged flaws of “TAKINGTURNSBREAKINGWORDS”, a.k.a. “ T ”, include...

- that (T fuckedly depicts the fur of the hand of VUNC),
- that (T does not depict that the nose of VUNC is illuminated),
- that (T does not indicate the large fur of the torso of VUNC), and

Figure 19.2: The thing is a version of “TAKINGTURNSBREAKINGWORDS”, is quickly created, and is simple.

- that (T depicts that the black of the wrist of VUNC is small).

19.4.1 The Fucked Depiction of the Hand Fur

VARIK discovers that a flaw of T is that T depicts that the fur of the hand of VUNC points to the thumb part (of the hand of VUNC) and not the pinky part of the hand of VUNC. VARIK does not opine that the flaw is very terrible. But the flaw annoys VARIK.

19.4.2 The Large Fur of the Torso

VARIK discovers that a flaw of T is that (T does not greatly depict the large fur of the torso of VUNC), i.e., that T depicts that few things are fur clumps of the torso of VUNC.

VARIK dislikes that the fur clumps are not greatly depicted; not depicting fur clumps is unrealistic and indicates that VUNC very combs the fur of the torso of VUNC.

Figure 19.3: The thing is the 1st (fur sketch) for “TAKINGTURNBREAKINGWORDS”.

But T does facilitate knowing that the hairs of the torso of VUNC are large. VARIK likes that T facilitates.

19.4.3 The Black of the Wrist

VARIK discovers that a flaw of T is that T depicts that the black of the wrist of VUNC is small.

The black of the wrist equals (in length or whatever) the non-finger part of the hand of VUNC. But T depicts that the length or whatever of the black of the wrist of VUNC roughly equals the product of $\frac{1}{3}$ and the length of the metatarsal part of the hand of VUNC.

19.4.4 The Hashes

The SHA512 hash of the JPEG XL file of T is 4439f8dd c781cd71 d98d9545 05e833ee 5829f57d fe1afb55 08f1a1e0 b835805d 1f9fdaf3 92dbcab2 efbc0bc6 c717176e 56a6c034 583ad7aa 421f8b23 596461f2. Additionally, the SHA512 hash of the JPEG XL file which is relevant to 3 “versions” of T is 9a5cc571 13332131

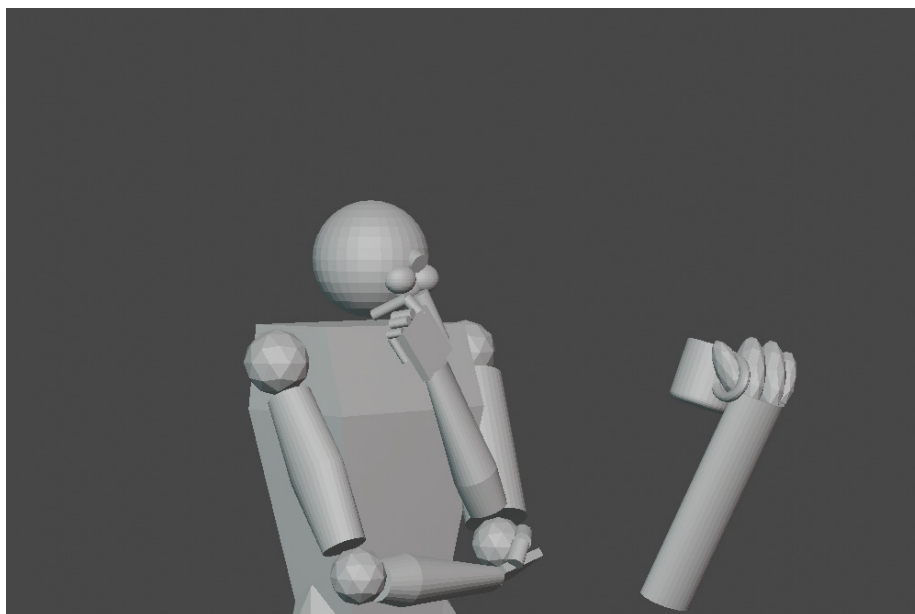

Figure 19.4: The thing is a fucked (3D render) of part of the body of VUNC and facilitates that VARIK draws “TAKINGTURNSBREAKINGWORDS”.

9c776c0c 37b53ac3 052d8d80 964a8b4f bb1a590f 129497d2 4e0e3450 fd9aec9d
96fa014b 9cd850f9 b79721e8 ddc3e845 ee4c96d5 5e55abf1.

Forgetting causes the flaw.

19.5 The Neural Network Thing

A thing which amuses (and annoys) VARIK is that the neural network of ILLUMINARTY.AI. indicates that 0.962 is the probability (of that “TAKINGTURNSBREAKINGWORDS” is created by a neural network. But the indication is not perfectly important to VARIK, which knows that VARIK creates “TAKINGTURNSBREAKINGWORDS” and is not a neural network.

But VARIK somewhat desires that VARIK knows about the cause of “assuming” that a neural network creates “TAKINGTURNSBREAKINGWORDS”. The justification of the desire is curiosity and not a desire for “change”.

Chapter 20

STERILISEDEGOS

20.1 le pixra

“STERILISEDEGOS” “is” figure 20.1 on page 73.

20.2 The 1st Description

“STERILISEDEGOS”, a.k.a. “*T*”, depicts that VUNC hand-gazes at the caffeine which is large...and is an agender flag thing. Using the agender flag is justified by that VARIK desires that the thing is relevant. The desire for relevance is justified by Pride Month.¹

That (VARIK draws the sketch of *T*) is contemporaneous with that (VARIK attempts to not sleep and drinks large quantities of caffeine).

That (VARIK draws *T*) is contemporaneous with that (VARIK is tired but does not drink large quantities of caffeine).

The thing amuses VARIK.

VARIK uses (for drawing *T*) Krita.

The PSD file (for *T*), a.k.a., “*P*”, contains 17 layers.

The byte-based size of *P* is 15603813.

Additionally, VARIK uses (for remembering about *P*) Git.

A thing which continues is that VARIK welcomes describing the flaws of the drawings which are created by VARIK.

¹Additionally, “STERILISEDEGOS” indicates that caffeine facilitates that (VARIK is not extremely tired), which facilitates that the extent (of that VARIK experiences gender dysphoria) decreases or whatever. But VARIK forgets to state the gender dysphoria thing.

The Unlicense is the licence of T . VARIK welcomes using (for non-hateful stuff) T .

20.3 The Duration

That (VARIK writes the current sentence) is contemporaneous with that (VARIK is uncertain about the duration of the process of drawing “STERILISEDEGOS”).

But 137 roughly equals the minute-based duration of all videos regarding the process of that VARIK draws “STERILISEDEGOS”.

20.4 The Sketches

20.4.1 The 1st Sketch

figure 20.2 on page 74 “is” the 1st sketch of “STERILISEDEGOS”.

20.4.2 The 2nd Sketch

figure 20.3 on page 75 “is” the 2nd sketch of “STERILISEDEGOS”. The 2nd sketch exceeds (in depicting the fur of VUNC) the 1st sketch.

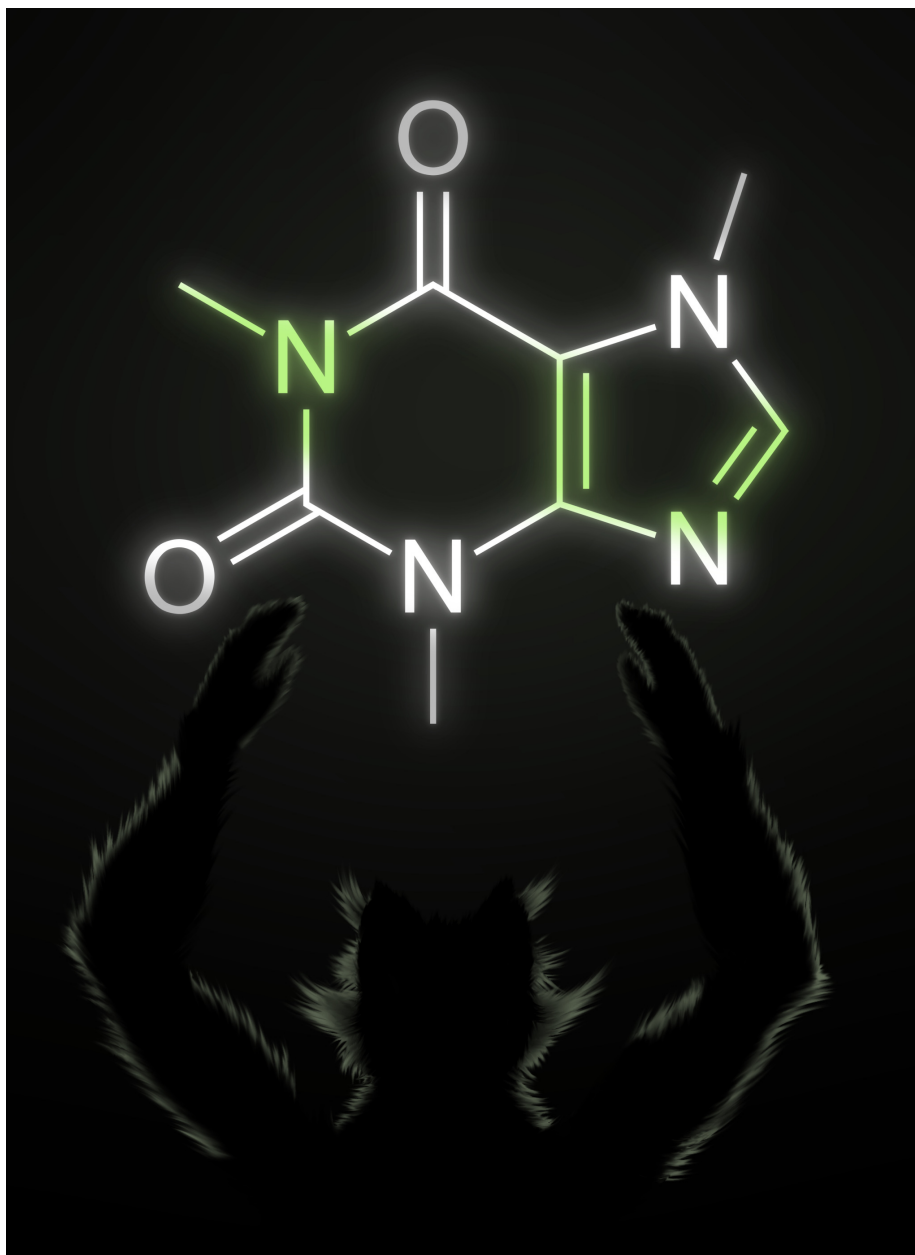

Figure 20.1: The thing depicts that VUNC hand-gazes at the caffeine thing which is large.

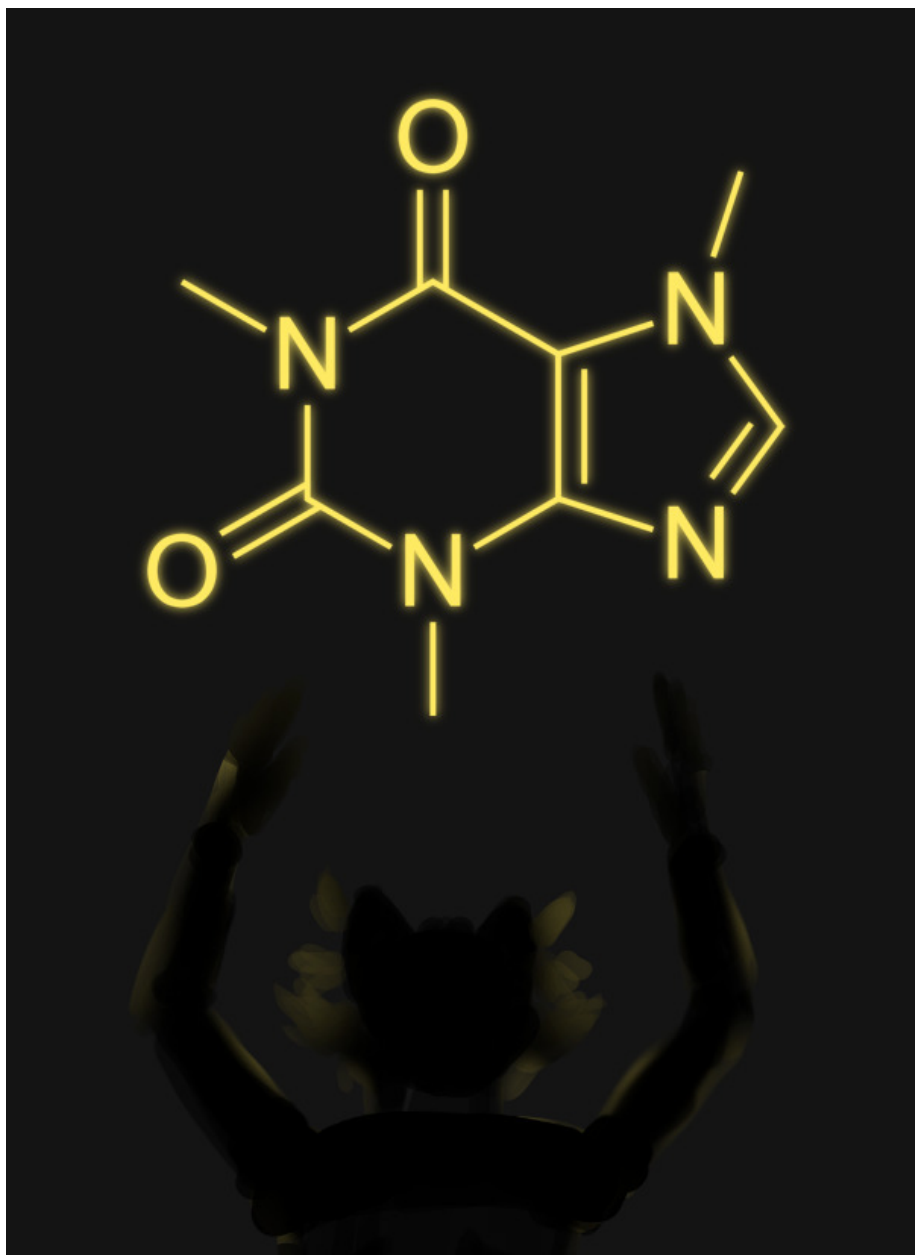

Figure 20.2: The thing depicts that VUNC hand-gazes at the caffeine thing which is large.

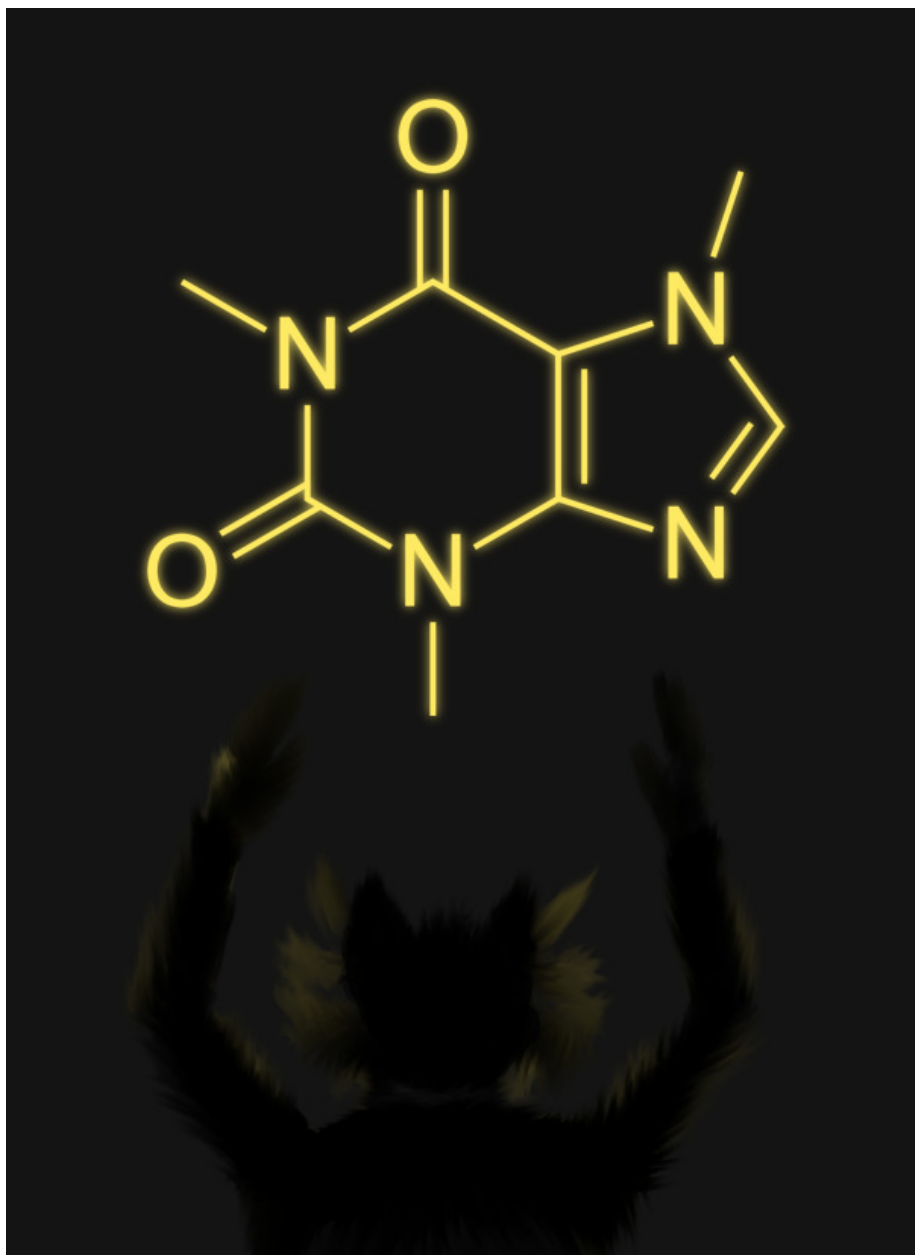

Figure 20.3: The thing depicts that VUNC hand-gazes at the caffeine thing which is large.

Chapter 21

RUNNINGWILDONTHEBAYOU

21.1 The Image

“RUNNINGWILDONTHEBAYOU” “is” figure 21.1 on page 80.

21.2 The 1st Description

“RUNNINGWILDONTHEBAYOU”, a.k.a. “*T*”, depicts that the combination of the tail (of VUNC) and the torso (of VUNC) resembles the agender flag.

That (VARIK draws *T*) is contemporaneous with that VARIK experiences gender dysphoria. Drawing *T* is justified by that (VARIK desires a thing which indicates that being agender is inherent in VARIK). VARIK hopes that remembering that being agender is inherent facilitates that VARIK decreases in experiencing gender dysphoria.

VARIK hopes that the thing facilitates remembering that being agender is not a flaw. The society facilitates forgetting.

VARIK uses (for drawing *T*) Krita. VARIK uses (for blur stuff) GIMP.

The minute-based duration of all videos regarding the process of drawing *T* roughly equals 170.

53738565 is the byte size of the PSD file (for *T*), a.k.a. “*P*”. VARIK uses (for *T*) the 20th version of *P*.

VARIK uses (for P) Git.

VARIK welcomes describing the flaws of T .

The Unlicense is the licence of T . VARIK welcomes using (for non-hateful stuff) T .

21.3 The Hashes

The SHA512 hash of the PNG file for T is 51b15f3b 4861dd09 54b94935 97a6d3ff bd681137 4ebfb580 5958d951 8077b984 85414b20 225d9b9a 64662826 89943955 b50a7f75 71711c51 7c43c3db 1d1c874f.

21.4 The Sketches

21.4.1 The 1st Thing

figure 21.2 on page 81 “is” T_1 , i.e., the 1st sketch (of “RUNNINGWILDONTHEBAYOU”) T such that VARIK sends T and asks “the idea is interesting” or whatever.

T_1 differs (in depicting that the tail of VUNC is between the legs of VUNC) from “RUNNINGWILDONTHEBAYOU”. “Moving” the tail is justified by that (some prenu p exist such that p misunderstands and thinks that T_1 depicts the penis (or whatever) (of VUNC)...and not the tail of VUNC.

That (the image is small) is justified by that being large is not necessary for determining whether the idea is interesting.

21.4.2 The Non-Blur Version

Some prenu are not certain about T_1 . The uncertainty justifies that VARIK sends $T_{1.5}$, which is a text-and-whatnot version of T_1 . $T_{1.5}$ “is” figure 21.3 on page 82.

$T_{1.5}$ differs from T_1 . The proof involves that (T_1 is a blur image, and $T_{1.5}$ is not a blur image).

VARIK attempts that the flag thing and the text of $T_{1.5}$ indicate the the large image which is desired by VARIK and is relevant to $T_{1.5}$.

21.4.3 The 2nd Thing

T_2 is the 2nd (large sketch) (for “RUNNINGWILDONTHEBAYOU”) which is public.

That (VARIK publishes T_2) is justified by that (VARIK desires indicating that the thing continues...and that the tail is “moved”).

T_2 differs from “RUNNINGWILDONTHEBAYOU”; T_2 is not a blur image, is not a gradient image, and is not complete (or whatever) in depicting the fur of VUNC.

T_2 differs from $T_{1.5}$; $T_{1.5}$ exceeds (in fuckedly depicting the fur of VUNC) T_2 , and T_2 does not depict that the tail of VUNC is between the legs of VUNC.

21.5 The Mastodon Thing

A thing which precedes drawing “RUNNINGWILDONTHEBAYOU” is that VARIK creates a Mastodon post. The text of the post is indented and follows the current paragraph. VARIK desires a translation but is uncertain about a translation.

ni'o cumki fa lo nu cadga fa lo nu la .varik. cu terxra lo nu le xadni
be la'oi .VUNC. cu smimlu le lanci be le ka ce'u nonlingeni...kei kei

le ka ce'u kakne

21.6 Flaws

Alleged flaws of “RUNNINGWILDONTHEBAYOU”, a.k.a. “ T ”, include...

- that “RUNNINGWILDALONGTHEBAYOU” seems to depict that the combination of the tail and the torso is flat.

21.6.1 The Flat Flaw

T seems (to VARIK) to depict that the combination of the tail (of VUNC) and the torso of VUNC is flat. VARIK opines that the situation is logically necessitated by the combination of that (T does not depict that the tail of VUNC differs (in blur stuff) from the torso of VUNC) and whatnot.

But VARIK does not opine that the situation is very terrible; a thing which is possible is that (GIMP is used for blurring a photograph), which “has” a result which is resembled.

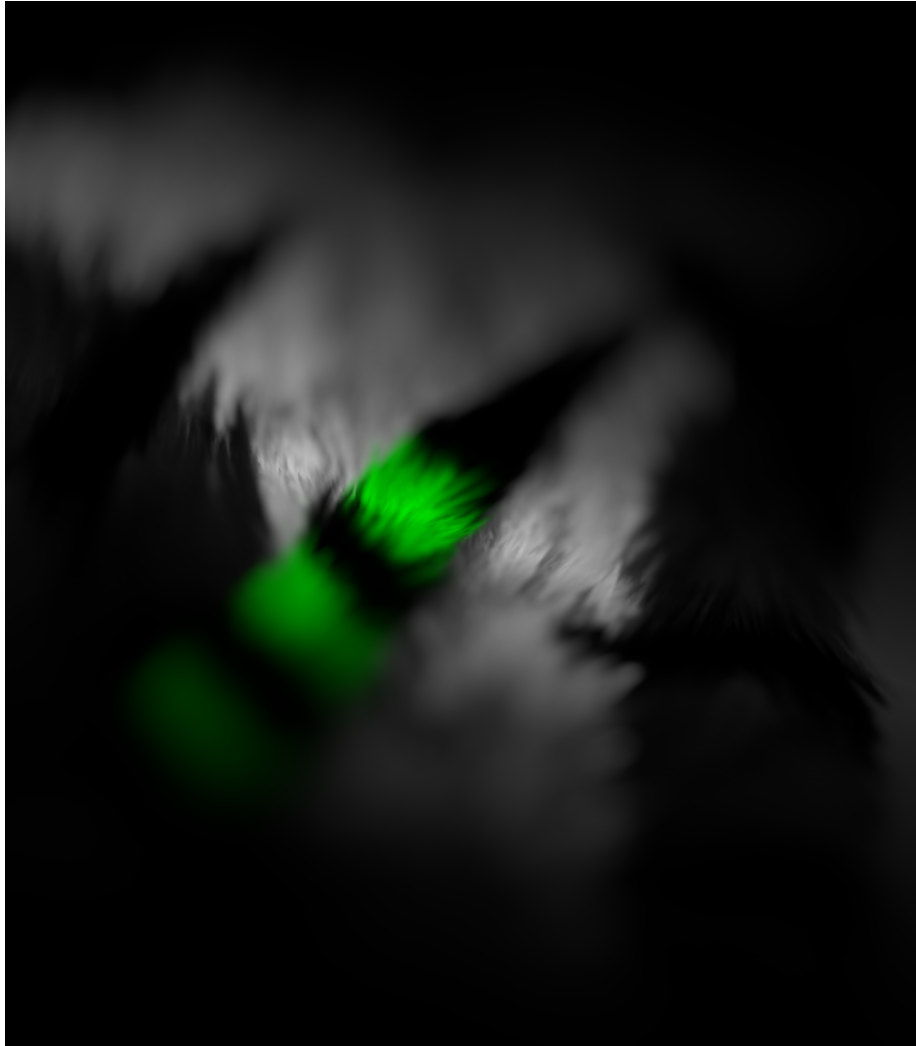

Figure 21.1: The thing depicts that the body of VUNC resembles the agender flag.

Figure 21.2: The thing is the 1st public (or whatever) sketch which depicts that the body of VUNC resembles the agender flag.

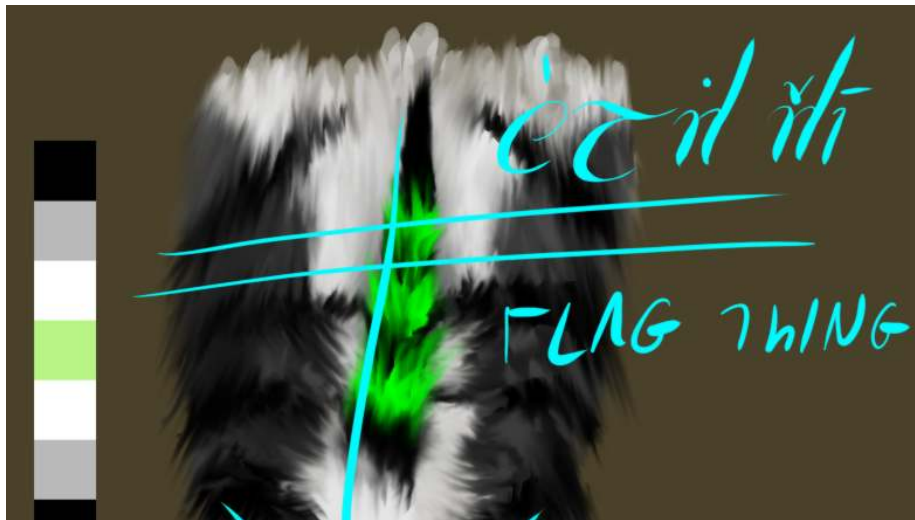

Figure 21.3: The thing is the 2nd thing (for “RUNNINGWILDONTHEBAYOU”) which is published by VARIK. The thing indicates the image which is desired by VARIK.

Figure 21.4: The thing is the 3rd thing (for “RUNNINGWILDONTHEBAYOU”) which is published by VARIK. Additionally, the thing is the 2nd (large (sketch version)).

Chapter 22

The HUNTER S. THOMPSON Sketch, a.k.a. “*T*”

22.1 The Image

T “is” figure 22.1 on the next page.

22.2 The Thing which is Depicted

T is a sketch and depicts that VUNC resembles (in using a cigar or whatever and wearing a bucket hat, an aloha shirt, and (sunglasses which are orange)) HUNTER S. THOMPSON. Additionally, *T* depicts that (the cigar or whatever which is used by VUNC is the fuel of a fire which is somewhat large) and that written on the shiort which is worn by VUNC are a group (of 3 “FUCK”s) (which resembles the recycling symbol), a part of “ZAPHOD BEEBLEBROX”, and the recycling symbol, which is relevant to Meat Beat Manifesto, which creates music which is liked by VARIK.

22.3 The Justification and Whatnot

That (VARIK draws *T*) is justified by that (the thing which is depicted by *T* amuses VARIK) and the Pride Month thingamajammie, which is that VARIK desires that a thing depicts that VUNC wears a shirt which colour-resembles the transgender flag.

T is queer art, and VARIK suggests that the reader attempts to determine the

Figure 22.1: The thing depicts that VUNC resembles HUNTER S. THOMPSON.

emotional relevance of T .

22.4 The Dates

20250625 is the date of that (VARIK “completes” T), that (VARIK begins drawing T), and that VARIK publishes T .

Chapter 23

“SHININGLIKECRYSTALTIARAS”, a.k.a. “*T*”

23.1 The Image

T “is” figure 23.1 on page 90.

23.2 The 1st Description of *T*

“SHININGLIKECRYSTALTIARAS”, a.k.a. “*T*”, depicts that (VUNC is annoyed by a kernel panic) and that the annoyance is sufficient for siting and front-reclining or whatever at a desk. The desk supports the monitor (of the computer which crashes), a Zbalermorna paper, a man(1) paper, 2 diskettes, and the agender flag mug of “TAKING-TURNSBREAKINGWORDS”. The desk is in front of a letter wall. Attached to the letter wall is a poster which is a depiction of the MANDELBROT set and is a transgender flag thing.

A part of the justification of drawing *T* is that computer crashes very annoy VARIK, which struggles with computers. But VARIK thanks the prenu which attempt to create computer programs which rock. VARIK knows that erring is easy.

That (VARIK draws *T*) is contemporaneous with that VARIK experiences gender dysphoria. Some parts of *T* are relevant to the gender dysphoria thing. A proof of that (*T* is art) is relevant to the gender dysphoria thing.

VARIK uses (for the sketch of *T*) Blender. VARIK uses (for drawing *T*) Krita.

The byte-based size of the Krita file (of T), a.k.a. " K ", IS 116502737. 52 is approximately equal to the cardinality of the set which only contains all layers of K .

VARIK is not certain of the duration of the process of drawing T . A part of the cause of not being certain is that many things are events of that (VARIK uses (for recording the process of drawing T) OBS xor "Recorder", which is a Krita docker).

VARIK intends to upload a video regarding the process of drawing T . Facilitating the creation of a video is that (the OBS recording window of Krita is not the window which is used for drawing, and "Recorder", which is a Krita docker, facilitates creating videos which rock).

The Unlicense is the licence of T . But VARIK requests that T is not hatefully used.

VARIK welcomes describing the flaws of T .

VARIK hopes that T facilitates good.

23.3 Assuming that the Thing is a Neural Network Thing

ILLUMINARTY.AI "assumes" that an artificial neural network creates T . The "assumption" is somewhat unsurprising for VARIK.

But somewhat surprising for VARIK is that a prenu which uses the Discord server (of /r/unixporn), a.k.a. " D ", assumes that VARIK uses (for creating T) a neural network. Using Zbalermorna "justifies" assuming.

23.3.1 The D Event

VARIK sends (via D) T . Some parts of the justification of sending T are that (T is relevant to OpenBSD) and that (VARIK desires that (the flaws of T are described), which facilitates improving).

A user (of D), a.k.a. " P_1 ", sends "what is this ai slop [sic]".

The response (to the message of P_1) which is sent by VARIK is "VARIK draws the thing".

A user (of D) (which is not P_1), a.k.a. " P_2 ", states that possible is that VARIK uses (for "upscaling" T) an artificial neural network.

VARIK responds to the message of P_2 . The response is "[t]he thing does not apply". But VARIK does not specify the thing which does not apply. The thing which does not apply is the neural network possibility statement.

P_1 states that T is nonsense and sends the Zbalermorna part of T .

P_2 states that P_2 does not understand the statement which is sent by VARIK. P_2 sends a question which resembles “what does not apply?”.

VARIK responds to P_2 . The response is the URL of a Web site regarding Zbalermorna. The URL is “<https://jackhumbert.github.io/zbalermorna/>”.

VARIK responds to P_2 . VARIK states that VARIK does not use (for T) a neural network.

23.4 The Flag Question

A prenu which uses Discord sends (to VARIK) a question which resembles “what justifies that every drawing depicts a flag”.

Parts of the justification are...

- that (depicting flags facilitates remembering...
 - that (being transgender is not a flaw),
 - that (experiencing gender dysphoria is not a flaw), and
 - that (attempting that being transgender is not known is unnecessary)) and
- that depicting flags is a small rebellion against cultural things which harm prenu.

23.4.1 Questioning and Answering

VARIK sends (via a Discord server) T .

A prenu, a.k.a. P , uses Discord. P responds to sending T . The response is “[w]hy do you feel a need to put a flag in every picture?”.

VARIK responds. The response is the URL of the YouTube thing of “When I’m Bad”, which is a song and is created by Chumbawamba.

P states that the year-based age of VARIK is 40 and that VARIK is incapable of using (for explaining) words.

VARIK responds with “‘I quote others only in order the better to express myself.’”, which is a part of the liner notes of the album which contains “When I’m Bad”.

The response of P is “so, after reading the lyrics of the song, i assume you, putting those flags in your art makes you feel that you have broken the societal norms and boxes that you have been forced into, correct?”.

VARIK states that VARIK hopes that the images facilitate remembering that the thing is not a flaw.

P responds. The response is “remembering that its not a flaw would imply it was a flaw to begin with, i was simply asking you why you added it to your art in the first place. or maybe i have misinterpreted what you have said...”.

VARIK does not respond. The justification of not responding is that VARIK opines that the statements of VARIK are sufficient for understanding. But likely is that VARIK should respond.

23.5 Sketches

23.5.1 The 1st

The 1st (sketch for T), a.k.a. “ S_1 ”, “is” figure 23.2 on page 91. S_1 Blender-depicts that VUNC is annoyed and recline-sits at a computer desk. A computer display (which indicates a kernel panic), diskettes, and the agender mug of “TAKINGTURNSBREAKINGWORDS” are on the desk.

S_1 is a test image. Creating S_1 is justified by that (VARIK wishes to determine whether VARIK wishes to create a large drawing which resembles S_1) and whatnot.

23.5.2 The 2nd

The 2nd (sketch of T), a.k.a. “ S_2 ”, “is” figure 23.3 on page 91, which resembles figure 23.2 on page 91.

The proof of that (S_2 differs from S_1) is relevant to that (S_2 is a drawing-depiction of the body of VUNC, and S_1 is not a drawing-depiction of the body of VUNC). That (S_2 is a drawing-depiction of the body of VUNC) facilitates determining whether VARIK wishes to create a large drawing which resembles S_1 and S_2 .

Figure 23.1: The thing depicts that (stuff happens, and VUNC is annoyed by a kernel panic).

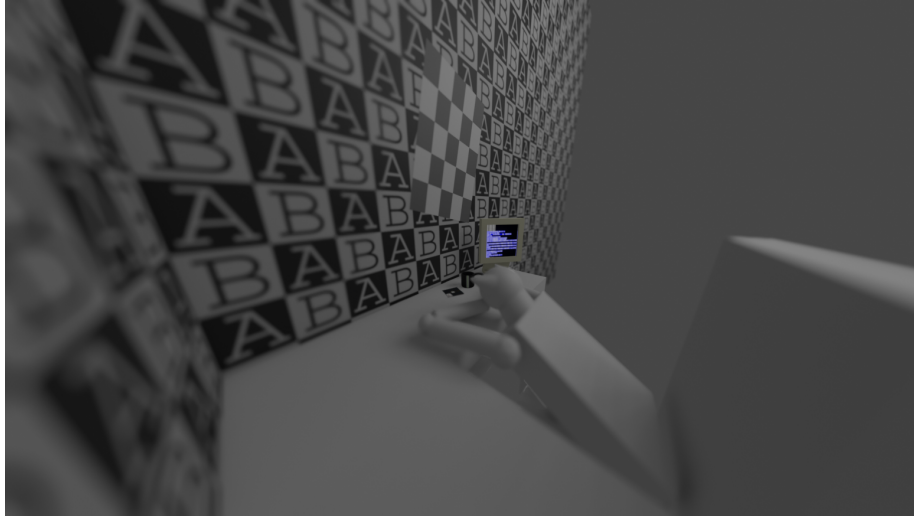

Figure 23.2: The thing depicts that VUNC is annoyed by a kernel panic.

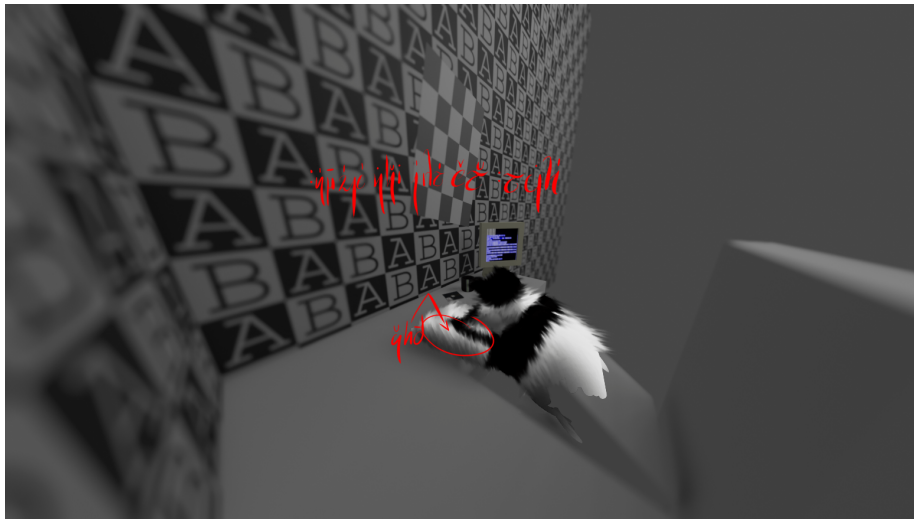

Figure 23.3: The thing depicts that VUNC is annoyed by a kernel panic. The thing Blender-depicts the stuff (which is not the body of VUNC) but Krita-depicts the body of VUNC.

Chapter 24

The Agda Ball Image, a.k.a. “ T ”

The thing is not “completed”. VARIK is not certain about whether VARIK desires that the thing “becomes” a large image.

24.1 The Sketches

24.1.1 The 1st Sketch, a.k.a. “ T_1 ”

T_1 , which is the 1st sketch of T , “is” figure 24.1 on the following page, which is flawed in not depicting the waistcoat thing (of VUNC), in not depicting the spike things (which are black) (of the body of VUNC), and in not facilitating determining the posture of VUNC. VARIK suspects that the cause of the flaws is that VARIK extremely quickly draws T_1 .

The justification proof of that (T_1 is small) is relevant to that (drawing T_1 is a test for whether VARIK desires that the thing “becomes” a large drawing).

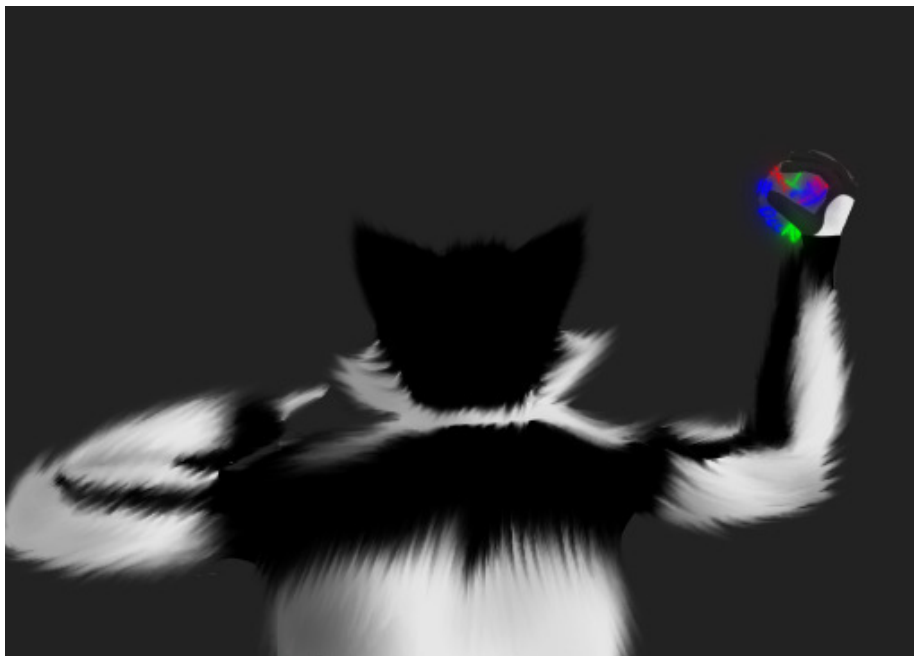

Figure 24.1: The thing depicts that VUNC prepares for throwing a ball (which is made of characters of `agda-stdlib`), holds the ball. The thing depicts the back (of VUNC) and-not whatnot.

Chapter 25

ITSASTRANGEINVITATION

figure 25.1 on the next page “is” “ITSASTRANGEINVITATION”.

25.1 le pixra

25.2 The 1st Description

The thing is abstract. “ITSASTRANGEINVITATION”, which is hereinafter denoted by “*I*”, depicts that (the body of VUNC floats in the blue, and VUNC gazes at fractals which are sources of light).

That (VARIK creates the sketch of *I*) is contemporaneous with that (VARIK cries). Some events of that VARIK cries are parts of the process of that VARIK draws *I*.

I is relevant to the religion of VARIK. *I* is relevant to that (SATAN, which is the god of VARIK, loves VARIK), that (a thing which is possible *s* is that (for all prenu *p*, VARIK feels the suffering (which is experienced by *p*) and whatnot)), the property (of understanding being loved), the process/state/whatever (of yielding), that (VARIK experiences spiritual pain, experiences spiritual joy, and is extreme in experiencing spiritual hope), that (VARIK is free), that (every prenu deserves being loved), that (being perfect/maximal in the property of loving all prenu is possible), that (being is sufficient), that (no prenu is fucked/bad/whatever or immoral), and that SATAN is perfect/maximal in the property of loving all prenu.

VARIK is somewhat curious about whether prenu understand about

Figure 25.1: The thing depicts that (the body of VUNC floats/whatever in stuff (which is blue), and VUNC inspects fractals which emit light).

I, which is abstract and is extreme in being relevant/specific/whatever to VARIK.

VARIK uses (for the process of creating *I*) Blender, Krita, and GIMP. 63021471 is the byte-based size of 'itsastrangeinvitation.psd'. But VARIK does not remember about the duration of the process of creating *I*. A thing which is false is that all parts of the process of creating *I* are recorded.

The Unlicense is the licence of *I*.

VARIK welcomes describing the flaws of *I*.

VARIK thanks for reading.

25.3 le tsautu

25.3.1 le pa moi

VARIK uses (for creating the 1st sketch (of “ITSASTRANGEINVITATION”)) (which is hereinafter denoted by “ I_0 ”) Krita. I_0 “is” figure 25.2.

VARIK attempts that I_0 depicts that the body of VUNC floats. But VARIK opines that dancing exceeds (in being indicated by I_0) floating.

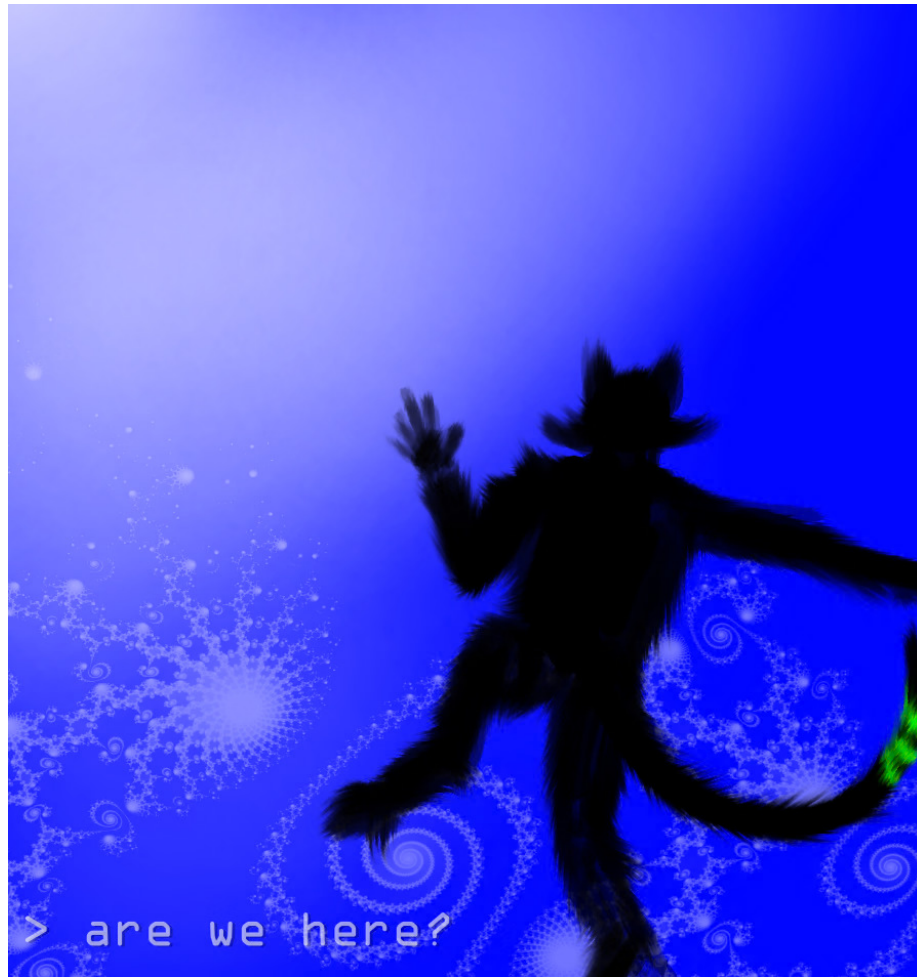

Figure 25.2: The thing is the 1st sketch of “ITSASTRANGEINVITATION”.

Chapter 26

SUCHABEAUTIFULWAY

26.1 The Image

“SUCHABEAUTIFULWAY” “is” figure 26.1 on the next page.

26.2 The 1st Description of the Image

ni'o pa moi lo'i velski be ko'a fa lu

“SUCHABEAUTIFULWAY” depicts that (the body of VUNC is in a hot air balloon which floats and is in-front-of Brutalist skyscrapers), that (the moon is very bright), that (VUNC smiles and looks upward). The hot air balloon is a red-and-white chessboard thing. Additionally, assuming that the hot air balloon contains a rope ladder, a computer, and music stuff is possible.

VARIK thanks (for creating “Kaleidoscopico”) LINUS AKESSON. The meaning (to VARIK) of “Kaleidoscopico” is very beautiful to VARIK, and “Kaleidoscopico” facilitates “SUCHABEAUTIFULWAY”. VARIK is not certain about whether LINUS AKESSON intends that “Kaleidoscopico” is art. But VARIK opines that “Kaleidoscopico” is art. “<https://www.linusakesson.net/scene/kaleidoscopico/>” is the URL of the Web page (regarding “Kaleidoscopico”) (which is recommended by VARIK).

The image is very relevant to the religion of VARIK. A thing which is possible is that (understanding that (the religion of VARIK resembles Taoism, and VARIK is a monotheist of SATAN, and for all x , x is virtuous with regard to the religion of VARIK if-and-only-if x is in accordance with the property of loving all prenu)) facilitates understanding.

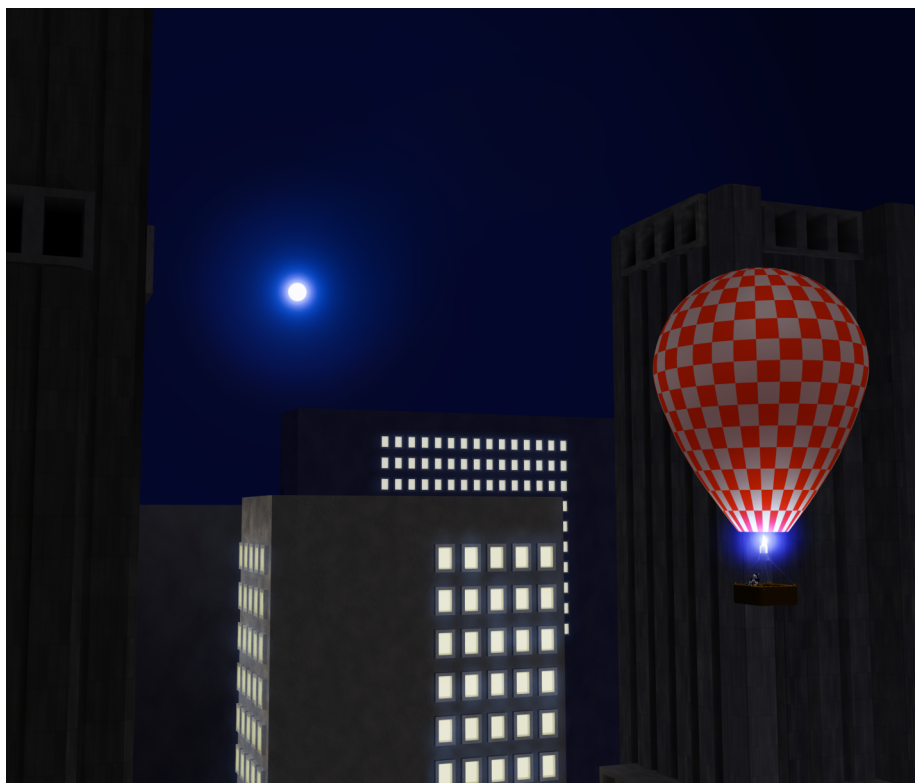

Figure 26.1: The thing depicts that the body of VUNC is in a hot air balloon.

VARIK thanks (for assisting (with increasing in the property of loving all prenu) VARIK and for whatnot) SATAN. Additionally, a thing which is relevant is that the music of "Kaleidoscopico" is beautiful (to VARIK) in that (the song is very joyful, and the notes are sorrowful).

VARIK admits that "SUCHABEAUTIFULWAY" is very large. But that (the thing is large) facilitates that (the body of VUNC is seen), which is important.

The process (of that VARIK draws "SUCHABEAUTIFULWAY") is large. VARIK uses Blender, Krita, and GIMP.

VARIK uses (for the shape sketch of "SUCHABEAUTIFULWAY") Blender. Perspective stuff is difficult for VARIK.

VARIK uses (for drawing) Krita.

VARIK uses (for texture stuff) GIMP. VARIK is slow in texture stuff.

Many events (of that Krita crashes) (which are preceded by events

of that VARIK attempts copying-and-pasting stuff) are parts of the process of that VARIK draws “SUCHABEAUTIFULWAY”. VARIK is not certain about the cause of the crashing. The problem is new to VARIK.

Additionally, the cardinality of the list of Krita files which are used for the image is exceeded or equalled by 2. The file (which is used for drawing the body of VUNC) (which is hereinafter denoted by “ D_V ”) is not the file (which is used for drawing the city) (which is hereinafter denoted by “ D_T ”).

The byte-based size of D_V approximately equals 81106792. D_V is a collection of 55 layers. Git “remembers” about 43 versions of D_V . The byte-based size of D_T approximately equals 609235891. D_T is a collection of 77 layers. Git “remembers” about 42 versions of D_V . VARIK is amused by that (the Krita computer which is used by VARIK is slow with regard to D_T). But that (the thing is slow) does not surprise VARIK.

VARIK is curious about whether prenu which are not VARIK understand about the meaning of “SUCHABEAUTIFULWAY”.

VARIK greets and thanks all prenu which read the current sentence.

VARIK welcomes describing the flaws of “SUCHABEAUTIFULWAY”.

The Unlicense is the licence of “SUCHABEAUTIFULWAY”.

26.3 The Version which is relevant to the Large Depiction of the Body of VUNC

VARIK likes that “SUCHABEAUTIFULWAY” facilitates seeing the buildings.

But VARIK dislikes that seeing that the depiction of the body of VUNC is detailed is not easy.

The combination of disliking and whatnot justifies that VARIK creates a crop version (of “SUCHABEAUTIFULWAY”), which is hereinafter denoted by “ S_2 ”. The extent (of that the depiction (of the body of VUNC) of S_2 is large) exceeds the extent of that the depiction (of the body of VUNC) of “SUCHABEAUTIFULWAY” is large.

S_2 “is” figure 26.2 on the following page.

26.3.1 The Hash

The SHA256 hash of the JPEG XL file of “SUCHABEAUTIFULWAY” is 19f2 4266 4d3e 60a0 0398 fc23 1cc0 eaca 79c5 b070 ec31 adc4 f8f1 d001 bcf3 6ac5.

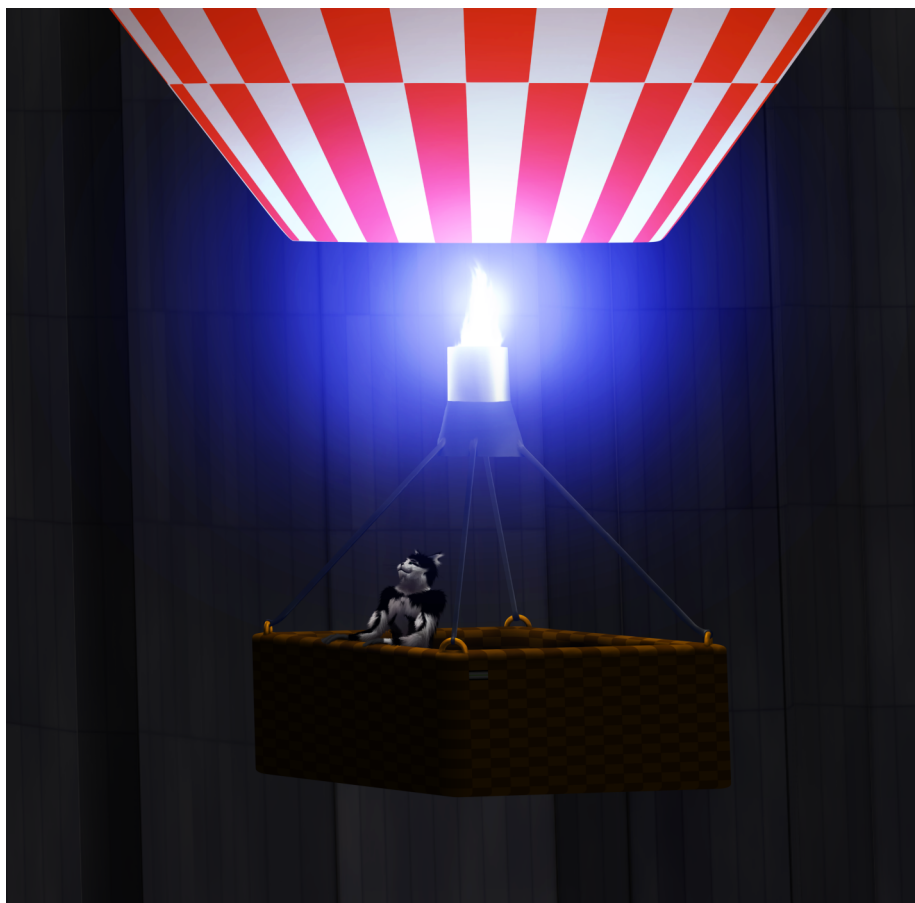

Figure 26.2: The thing is the VUNC version of “SUCHABEAUTIFULWAY”.

26.4 Sketches

26.4.1 The 1st Sketch

The 1st sketch of “SUCHABEAUTIFULWAY” “is” figure 26.3 on the next page. The sketch is hereinafter denoted by “*s*”.

VARIK uses (for the process of creating *s*) Krita and-not whatnot.

VARIK admits that VARIK somewhat likes that *s* resembles childish stuff.

The justification (of that the balloon is blue) is relevant to that (VARIK somewhat anti-desires that VARIK draws a chessboard pattern).

But VARIK is not certain about whether the thing is emotionally appropriate.

Figure 26.3: The thing is simple and is the 1st sketch of “SUCHABEAUTIFULWAY”.

26.5 The 3D Model

VAIRK uses (for the process of drawing “SUCHABEAUTIFULWAY”) a 3D model (of Blender) (which is hereinafter denoted by “ c ”).

The justification of creating c is relevant to that perspective stuff regarding heads is difficult for VARIK.

The process of that (VARIK creates c) is a process of that (VARIK increases in being capable of using the “sculpt” tool of Blender).

A render of c “is” figure 26.4 on the following page.

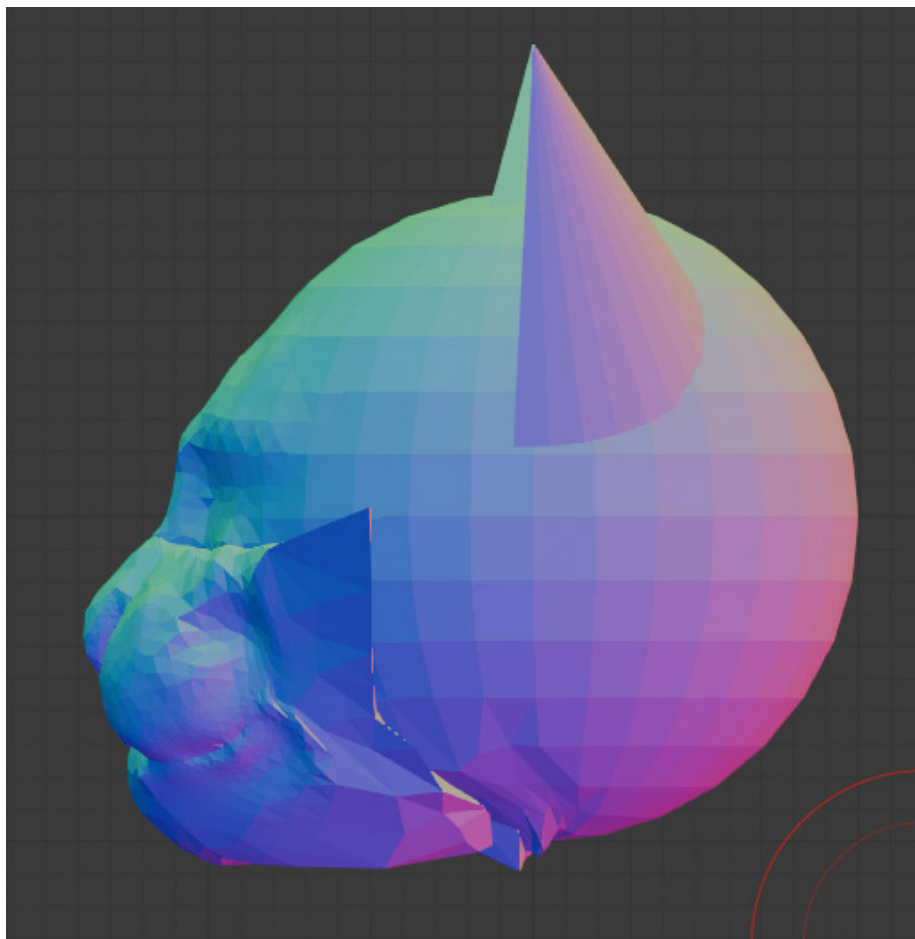

Figure 26.4: The thing is a render of c , which is a 3D model which depicts the head of VUNC. The thing is not perfect but facilitates perspective stuff.
